

Smoke Alarms at Home

Page 1 of 1

Name _____

Smoke alarms save lives by warning you of a fire. Here are some tips for keeping your home safe from fire.

- Install smoke alarms inside and outside each sleeping area.
- Install a smoke alarm right outside the kitchen.
- Install smoke alarms on every level of your home.
- Always follow the manufacturer's instructions.
- Use the test button to check each smoke alarm once a month. When necessary, replace batteries immediately. Replace all batteries at least once a year.

Note: Some people find it easy to remember to replace batteries on a certain anniversary or birthday or on a specific date, such as October 1.

- Vacuum cobwebs and dust from smoke alarms monthly.
- Smoke alarms become less sensitive over time. Replace smoke alarms every 10 years.

Where are the smoke alarms in your home?
