American Red Cross

Many Americans in Over Their Heads in the Water

Can you swim well enough to save your life?

85% of Americans say they can swim.

But...

less than half of Americans can perform all of the 5 basic skills that could save their life in the water.

Can perform all 5 of these basic water safety skills.

- 1. Step or jump into the water over your head.
- **2.** Return to the surface and float or tread water for one minute.
- 3. Turn around in a full circle and find an exit.
- **4.** Swim 25 yards to the exit without stopping.
- **5.** Exit from the water. If in a pool, be able to exit without using the ladder.

Who can perform all 5 basic water safety skills in order?

of parents of children ages 4–17 say their child can perform them.

of **men** say they can perform them.

of **African Americans** say they can perform them.

of **women** say they can perform them.

Every day, an average of 10 people die in the U.S. from unintentional drowning.*

The American Red Cross wants to reduce drowning rates across the country, focusing on communities that are most at risk.

Make sure adults and children can swim; know how to make safe choices in and around the water; and know how to respond to a water emergency. Go to redcross.org/watersafety to learn more.
