

# Fiscal Year 2020 Impact Report

## July 1, 2019 - June 30, 2020

Hawaii Red Cross volunteers were positioned outside the neighborhood after the Diamond Head shooting and fire in January 2020

Fiscal Year 2020 was an unexpected and unprecedented year. We responded to more than 70 home fires. Notable incidents included multiple Maui Brushfires, a Kauai helicopter accident, the Diamond Head shooting and fire, Kauai flooding, and an Oahu standoff.

April through June was dominated by the COVID-19 pandemic and responding to missions outside our typical scope of work. Our Service to the Armed Forces volunteers served in a major role by taking on positions considered essential during the pandemic. Other volunteers helped feed people in quarantine, distribute meals to the public, and conduct outreach and wellness checks. These impacts are not reflected in the data below.

Responded to **89 disasters**

Assisted **363 individuals**

Sheltered **176 people** after disasters

Supported by **1,541 active volunteers**

Educated **1,292 youth** about disaster preparedness

Provided **7,582 military service members** emergency communications

Briefed **9,793 military service members** on Red Cross services

Trained **19,395 people** in first aid/CPR/AED

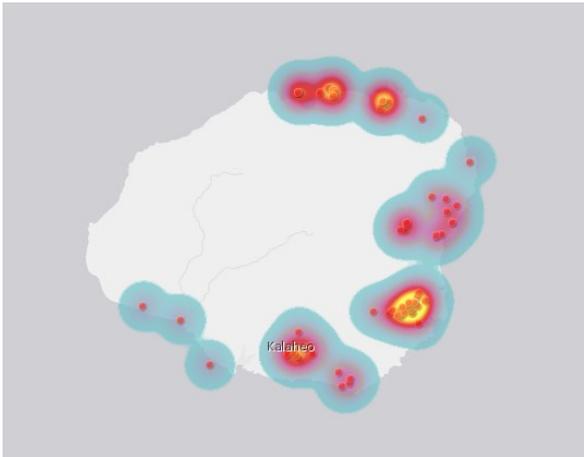

Trained **4,084 people** in water safety/aquatics
