

Fiscal Year 2021 Impact Report

July 1, 2020 - June 30, 2021

Hawaii Red Cross volunteers directed traffic at Tripler Army Medical Center COVID-19 vaccination clinics.

In Fiscal Year 2021, we responded to more than 80 disasters, of which 70 were home fires. We continued to provide help and hope in spite of the COVID-19 pandemic, maintaining safety protocols to protect the public, our volunteers, and staff. Virtual service delivery was skillfully administered during disaster responses, the most notable of which included Hurricane Douglas, multiple Maui brushfires, and Hawaii's worst flooding in 20 years. We proudly ventured beyond our normal mission by offering online resources to manage pandemic-related stress, and we assisted at COVID-19 testing sites and vaccination clinics.

Responded to **83 disasters**

Assisted **483 individuals**

Sheltered **615 people** after disasters

Supported by **1,543 active volunteers**

Educated **1,462 people** about disaster preparedness

Provided **8,717 Hero Care Network services**

Distributed **14,509 comfort and care items** at military events

Provided over **1,000 pet-assisted activity visits**

Trained **18,137 people** in first aid/CPR/AED
