

Here is my bio:

Leslie Day is the Management Systems Supervisor at Countrymark Refining and Logistics, LLC in Mount Vernon, Indiana. She has been with the company for over 10 years and manages the Workplace Excellence Program; which develops, audits, and improves the company's internal work processes. Additionally, she and her team administer the Document Control and Work Order management systems for the organization. She holds an associates in Business Administration from Ivy Tech Evansville and a bachelors in Organizational Leadership from the University of Evansville. She has worked in the tristate area all her life and resides in Mount Vernon, Indiana with her husband and four children.

She serves as the Blood Program Leader for CountryMark and has been amazed at the impact just one organization can have in saving lives. She is delighted in the opportunity to serve our local communities and raising the awareness of the Red Cross needs.
