The American Association of the Red Cross with the help of Clara Barton was established in 1881. The Red Cross Association was later reorganized and in 1905 Congress granted it a new charter that established the basic organization of today's American Red Cross.

The American Red Cross grew during WW I (1914-1918). It met the welfare needs of rapidly expanding military forces. Red Cross field directors and other workers served troops in the United States and overseas. In 1917 Home Service was set up in many communities to provide a link between military personnel and their families.

That service still exists today and has been there as we have served our military and their families in every military conflict and war since that time. The Red Cross has traditionally been the liaison for families to meet the communication needs between the family and the service member of their family in times of need.

In 2015 we formed a working committee to step up what we offer to military families. There are countless numbers of agencies and organizations that exist to help military members and their families, but they are not always known to you. It has become our mission to communicate that information to every military family in **Cayuga, Seneca, and Yates** County. That is the inspiration for preparing this document; to link you to what is available depending on your needs.

We do this because we want to let you know how much we appreciate the sacrifice and giving that all military members and families have given to us and to our beloved country. This is a small token of our appreciation to you. We hope that you will find it useful and that you can connect to whatever service you may need. On behalf of the American Red Cross we thank you for your service!

Spotlighting the Medical Foster Home (MFH) Program.

The MFH program offers Veterans who need daily care a unique alternative to nursing homes. Veterans live in caregivers' homes, receiving personalized attention and one-on-one care, and are supported by VA's Home-Based Primary Care teams. These teams include doctors, nurses and other health care professionals who provide medical care directly in the home.

The MFH program is open to Veterans of all ages and demographics, allowing Veterans to live in a home environment while receiving personalized care. Veterans are responsible for paying their caregivers directly, with monthly costs typically ranging from \$2,000 to \$4,000. The caregiver rate is negotiated between the Veteran or their responsible party with oversight from the VA MFH team to ensure that the arrangement meets everyone's needs.

MFH caregivers provide round-the-clock support for these tasks, offering personal care, medication management, meal preparation and help with social activities. The Aid and Attendance benefit helps make this care more affordable for Veterans while allowing them to maintain their dignity and quality of life in a home-like setting.

If you're seeking compassionate care, check out the [VA Medical Centers with Medical Foster Home programs](#). Connect with your local VA social worker to find out when a Medical Foster Home will be available near you.

Veterans Services

AIM's veterans advocate provides education, advocacy, information, and referral to help veterans with disabilities achieve their goals of independence. AIM also coordinates a peer mentoring program for veterans, funded by the NYS Division of Veterans Affairs.

AIM's veterans advocate helps veterans identify and access available supports and services, such as benefit programs. By providing information and referral, the advocate helps veterans in the areas of education, employment, health care and housing.

The advocate connects veterans with help for issues such as substance abuse, PTSD, or physical injuries. AIM seeks volunteer mentors and participants for a peer mentoring program that gives support, encouragement, and accountability to veterans, particularly those readjusting to civilian life after military service or those who've been involved in the criminal justice system.

Assistance is free and confidential, and available to any veteran.

Veteran Directed Care Program (VDC)

The VDC enables Veterans to receive long-term services and supports to help them live independently at home and remain a vital part of their community. The program gives Veterans choice and control over their care. Veterans enrolled in VDC decide for themselves what mix of goods and services best meets their needs. VDC allows Veterans to choose, hire, schedule and supervise Care Attendants to support them.

VDC is a partnership between regional VA Medical Centers and local providers of aging and disability services.

Since 9/11, we have been helping America's heroes by providing mortgage-free homes to Gold Star and fallen first responder families with young children and by building specially-adapted smart homes for catastrophically injured veterans and first responders. We are also committed to eradicating veteran homelessness and helping America to Never Forget September 11, 2001.

Smart Homes Program

The Tunnel to Towers Foundation builds mortgage-free smart homes for our most catastrophically injured veterans and first responders. Each home is designed to address the unique needs of each individual. Smart homes host a myriad of features such as automated doors and lighting, wider halls and doorways, special showers to accommodate wheelchairs, automatic door openers, cabinets, counters, and stove tops that can be raised and lowered, back-up generators, and central heating and air conditioning systems that can be controlled by tablets. These homes help our most severely injured veterans and first responders to reclaim their day-to-day independence.

Gold Star Family Home Program

The Foundation will provide a mortgage-free home to surviving spouses with young children.

Veteran Homelessness

Veterans in this program will receive the support they need to help them address any obstacles to living a more independent life. In addition to delivering a mortgage-free home, the Foundation will also provide comprehensive care by connecting Veterans with appropriate local services (such as: mental health counseling, skills training, and addiction support).

In the military, service members push the limits of their well-being to support the mission. That selfless service posture has always been necessary because service members of every era knew they may be called to war. As they move into civilian life, many veterans carry that mission-first mindset with them, neglecting their health in the process.

We believe that veterans are America's most resilient citizens — and it's time for more veterans to prioritize their well-being first.

Team Red, White & Blue (Team RWB) exists to guide them through that journey with real-life and virtual opportunities focused on building a healthier lifestyle because a strong focus on mental and physical health is critical to ensuring veterans' best days are ahead.

Our mission is to enrich the lives of America's veterans by connecting them to their community through physical and social activity.

Team RWB members share more than just values. We share an ethos – a set of guiding beliefs and ideals that characterize our community. An ethos persuades or inspires people to action and that is what our organization is all about. While ethos can be sometimes hard to define, you certainly know it when you see it. Ethos is demonstrated, not stated. Lacrosse, running, rucking, yoga, cycling, triathlons, functional fitness are a few of the programs they offer.

America's VetDogs.....631-930-9000

Visit vetdogs.org for more information. Email: info@vetdogs.org

The Guide Dog Foundation provides Guide Dogs to individuals who are legally blind. America's VetDogs provides Service Dogs to veterans and first responders with physical disabilities, hearing loss, seizures, combat-related/work related PTSD and MST PTSD.

Created to provide enhanced mobility and renewed independence to veterans, active-duty service members, and first responders with disabilities, allowing them to live with pride and self-reliance once again. America's VetDogs specializes in placing highly skilled service and guide dogs to individuals with physical injuries, PTSD, hearing and vision loss, and seizures. Not only does a service dog provide support with daily activities, but it also provides the motivation to tackle everyday challenges.

America's VetDogs has built cooperative relationships with the military and the Department of Veterans Affairs, and today, we are a premier organization providing assistance dogs and training to disabled veterans and active service members. VetDogs continually strives to increase the options and services for veterans to ensure that they receive all the tools they need to once again be self-reliant.

A service dog is specially trained to help veterans or first-responders who have disabilities other than visual impairment and perform tasks that mitigate disabilities the handler experiences, performing these tasks while in public, the workplace or at home.☒

A guide dog is trained to find and follow a clear path, maneuver around obstacles, and stop at curbs. A veteran with a guide dog gains enhanced mobility and independence.

Facility Dog: America's VetDogs has trained and placed Military Facility Dogs to provide animal assisted intervention to wounded soldiers and active duty personnel during their journey to recovery at military installations, military and VA medical centers, and VA nursing homes.

Seizure response dogs are trained to perform special tasks following a seizure to assist its handler. These tasks may include getting help, or retrieving medication.

Many veterans face an uphill battle when they return as they figure out how they will integrate back into society. B2B provides scholarships to veterans who return from defending our country with an opportunity to get integrated back into their community through officiating. Those who have been involved in officiating already have felt the joy of stepping out onto the field or a court.

B2B is providing veterans with an opportunity to hone their newfound officiating skills and participate in something that will give them a new sense of self-worth along with the ability to make some extra income. While the ultimate goal will be to get some of our returning veterans into the upper levels of officiating, including the professional ranks, they will start out at the local level working high school and youth level games. Local associations are actively recruiting because there aren't enough officials signing up.

President Calvin Coolidge once said "a nation that forgets its defenders will itself be forgotten." We have not — and will not forget. B2B will help ensure that. B2B provides scholarships across the US with a BOD comprised of people experienced in business, military service, and officiating.

We do require them (or someone if they are not technologically experienced) to complete our online application. They also need to provide a copy of their DD214 that shows their separation status.

The type of assistance we offer:

Financial-the veteran applies for funds to cover something, e.g. insurance, rent, or items, e.g. a crib, a bed, an appliance, the veteran wants to take a class in finance. We can provide (one-time) \$600 towards their need. Let's say it is rent. We need the contact information for the landlord. We contact them, verify the veteran is living or moving there, verify their process for payments and then mail them the check. If the need is goods, we have accounts set up at various businesses. We ask the veteran to go online, put items in their cart and send us the pics of the items they want, not going over \$600. They do that and we have the items delivered to their homes as soon as the merchant can get it there. We respond to the veteran within 24 hours of the application. To date, their needs are the most basic: a roof over their heads, a bed on which to sleep.

Connection-we have found that veterans want to connect with people. For example, the veteran applies for a place to share their practice of yoga. We contact our partner organizations (or frankly, just to a Google search) to locate a facility that currently or plans to have yoga classes for veterans. We connect those two wonderful resources! It costs us nothing but time.

Community-we advertise that we can take veterans to a Rochester Red Wings game over the course of the summer (4 dates this year). The veteran emails us. They get a ticket, parking pass & \$20 diamond dollars to be used only at the concession there. If they have family members in their home who want to attend with the veteran, we give them the number of needed tickets. They can ride with the veteran so no parking or meals on us.

Pay-It-Forward-We ask the veterans who we help to help us do this with something that lights them up. What do you like to do? Fish? So you'd be willing to go fishing with another veteran? Great! We connect them. This gets repeated with each new veteran. Some veterans want to help us in return. This year, we've invited our veterans to help out at our major fundraiser in September (flyer attached). So far, we have 2 who want to give back to us.

Visit buildinghomesforheroes.org for more information.

Building Homes for Heroes® is determined and devoted to bringing renewed hope to our nation's injured veterans. The organization builds or modifies homes and gifts them, mortgage-free, to injured veterans and their families, while providing support services to help them to build better and brighter lives and reach new heights. It's truly an honor to serve the men and women who have courageously served and sacrificed for our country.

Building Homes for Heroes® encourages the wounded veterans we have assisted, or are currently assisting, to travel to our events and take part in other organizational endeavors to support other men and women who have been severely injured. The organization believes that this enables our recipients to build camaraderie with other wounded veterans who may later become recipients, but also to take another step toward being defined by their accomplishments and activities, and not their injuries or disabilities.

Homes are awarded to injured and disabled veterans, as well as Gold Star families, and are not currently homeowners on an availability basis. Applying does not mean you will receive a home. Please understand there are far more applicants than there are available homes. While we will do everything we can to help as many injured veterans and veteran families as possible, we will not be able to help everyone who applies.

Southern Tier Veteran Support Group (STVSG) 607-205-8332

PO Box 1201, Vestal, NY 13851

Visit stvs.org for more information. Email: info@stvs.org

STVSG provides a network of resources for our local veterans, service members, and their families. We strive to educate the community on veteran needs and partner with other organizations to offer a broad range of services and assistance to enhance each veteran's physical, emotional, and economic well-being.

The STVSG has provided funding for a service dog, furnace repairs, car repairs, mortgage payments and much more. They help with employment tools and provide clothing resources.

STVSG has three basic operating themes:

- Act as a coordinating agency with other service providers, including our 70+ affiliated organizations that provide assistance to veterans and their families.
- Educate the community about veteran needs and encourage businesses to hire veterans.
- Provide short-term financial assistance in the form of grants or loans.

When we receive a request for assistance, we go through a vetting process to determine the veteran's status, family situation, number of children, place of residence, type of discharge, monthly income and expenses, and the specifics surrounding the request. Once this information is gathered, we seek to develop a comprehensive plan to get the veteran back on their feet to become a productive member of the community. This may be through referral to one of our affiliates, and/or short-term financial grants or loans.

Each veteran is treated individually with caring, respect, and sensitivity to their situation, regardless of rank or service. All information gathered is protected. Our principles of support are that while we are not a sustaining organization, we can help a veteran once or twice, and that usually is sufficient to get them back on their feet. We do not do band-aid support, and we are always sensitive to what will happen in the next month or months after we render our support.

Our veterans put their lives on the line for this community and our nation, and STVSG helps them get the benefits they need and deserve.

Our goal is to bridge the gap between veterans and their communities. We're leading the way for veterans and the communities they come home to. Transitioning can be difficult for veterans, but we're dedicated to simplifying the process as a veteran-owned business.

Imagine that you're taking a stroll through the woods on a floating pathway called "Ethereal Dreams". Your equipped with the Holo Lens 2 (augment/mixed reality glasses). The glasses take you to a different dimension while keeping you within this realm. Along the path you have three separate locations that create an experience unlike any other you have had before. Picture placing yourself in a sy. fy. At your first location you see this beautiful garden style archway. With the glasses, suddenly you witness your first star gate ever. It leads you to the Geo Dome on the other side of the Archway. After you have crossed over to the other dimension and you're inside this dome, for the first time you witness a living, breathing, talking Dragon and out of this world plant life. Captivated by your experience you are intrigued to continue an adventure to the next set of domes.

We get it. Every veteran's path is one of a kind, with its own share of hurdles. We're here to enhance lives, confront challenges head-on, and open doors for personal growth, healing, and connections—all tailored to fit each veteran's unique journey.

Connect: No longer part of a close-knit team, former service members can feel isolated in the civilian world. Here, veterans find a new community of support and belonging—dramatically improving their outlook on life.

Restore: The obstacles veterans face impact not only them but also their loved ones. Here, veterans, families, and caregivers can heal; reset and re-adjust to life after service; and work toward a healthier, happier future.

Grow: It can be challenging for veterans to define their next steps in life. Here, they have a place to learn, develop new skills, adapt their military expertise to a successful civilian career, and discover a renewed sense of purpose.

Programs:

- Canine Program:** we raise purpose-bred puppies to support veterans physically and mentally. Our program is accredited by Assistance Dogs International, certifying our adherence to the highest standard.
- Peer and Family:** Emphasizes connection, stability, and understanding in a judgment-free zone. Whether interacting one-to-one or in a group, veterans and family members learn that they are not alone.
- Career Services:** Translating military skills into the civilian job market can be tricky. We offer mentorships, career counseling, and workshops to guide veterans toward their desired post military careers.
- Culinary Programs:** We know that food builds friendship and camaraderie. Veterans and their families can earn cooking certifications, take classes, and partake in events centered around the kitchen.
- Enrichment:** Growth and learning come in many forms. Through workshops in art, nature, mindfulness, and more, veterans can engage in self-exploration, socialization, and healing.
- Wellness:** Our approach to health and well-being is holistic. We offer massage therapy, touch therapy, yoga classes, and more to address the spiritual, physical, mental, and emotional components of health.

Mission: Empowering every transitioning service member with the support and information needed to achieve success as Veterans. The transition out of uniformed service is difficult, whether you served four years or forty. Our mission is to support active-duty service members in their journey back into civilian life. We connect new Veterans with trained sponsors from their destination community with a focus on the 12 months between leaving the military and reintegrating into civilian life as a new Veteran. We give you the tools to achieve your goals, along with a sponsor to guide you along the way. A program by Vets for Vets.

Sponsors: Onward Ops Sponsors are everyday community members like you. They come from diverse backgrounds, like the transitioning Service Members they assist. The journey out of military service is unique for each new Veteran and their family. For just a few hours a month, you can make a big difference in their success by offering your support and being there for them every step of the way.

WHAT DO SPONSORS DO?

Before they transition: You help by listening to any concerns or questions they may have. Offer to connect them with valuable resources that will aid the transition process.

Throughout their transition: It is important to check in with them and provide support regularly. Introducing them to local Veterans' organizations or other community resources can be helpful.

After their transition: Stay in touch and continue to be a supportive presence.

Sponsors are not expected to have all the answers but rather to be a source of encouragement and guidance. As a part of our network, you are supported by numerous service providers that specialize in different aspects of the military-civilian journey.

Provides Veterans a safe place to live while they regain independence and self-sufficiency.

The Permanent Supportive Housing Programs offers a unique opportunity for increased support prior to transitioning to independent housing. Veterans can remain in these programs permanently if they require long-term support services or temporarily if they no longer need support.

Services include:

- Case management; Individual and group meetings
- Support obtaining employment and/or further job training
- Linkages to community resources; Life skills and budgeting groups
- Transportation assistance for appointments

Regular activities, including game and movie nights, are organized by Eagle Star Housing staff.

The Transitional Housing Programs support Veterans on their journey to find permanent housing within three to six months. To ensure that Veterans are provided with a safe place to live while they search for permanent housing, staff work to address any barriers that may impact a successful journey, including physical and mental health issues and substance use disorders. We are proud of the successful completion rate in the Transitional Housing Program, and has helped a majority of residents who complete the program in searching for and obtaining permanent housing.

In a collaborative effort with Veterans Affairs, residents are linked to resources, support services, food and housing stability, and education.

Services include:

- Individual and group meetings; Vocational support
- Activities and life skills training; Transportation assistance for appointments
- Linkages to any further necessary community supports

If a resident is in need of another long-term housing solution, staff can connect residents with options that may include supportive housing, long-term residential care, or assisted living care.

We honor mothers and wives of active military on Mother's Day, Valentine's Day and Christmas by delivering beautiful gift baskets to remind them they are not alone and to encourage them as they navigate their new "normal" as a Hidden Hero while their loved ones serve overseas.

We help local veterans in many local PTSD homes by providing bedding, clothes, pots and pans, hygiene packages, furniture and coffee.

Habitat works together with families, local communities, volunteers and partners from around the world so that more people are able to live in affordable and safe homes. Our advocacy efforts focus on policy reform to remove systemic barriers preventing low-income and historically underserved families from accessing adequate, affordable shelter.

Houses are modestly sized. They are large enough for the homeowner family's needs, but small enough to keep construction and maintenance costs affordable. Habitat for Humanity uses quality, locally available building materials. Habitat home designs reflect the local climate and culture.

Through our Aging in Place program, Habitat helps older adults age at home and in communities of their choice. Our local Habitat affiliates collaborate with human services organizations to evaluate individual needs and provide critical home repairs, modifications and community services specific to each homeowner's lifestyle to preserve their home and their independence.

Habitat for Humanity works in a number of different ways to create decent, affordable housing.

- In addition to new construction, Habitat also renovates existing homes in many communities, particularly in urban areas.
- Habitat for Humanity helps people repair and improve their own homes and neighborhoods.

Habitat's Disaster Response works with local communities to address a variety of housing needs after natural disasters.

Neighborhood revitalization is a long-term, holistic strategy that supports residents to improve the quality of life in under-resourced communities. Habitat for Humanity takes a local and community-based approach to neighborhood revitalization to ensure that our work is driven by those with lived experience. Residents know their neighborhood's unique challenges and opportunities. We listen to the community's priorities and build on their strengths, leveraging our resources and partnerships to invest in community-led projects that improve the lives of current and future residents.

Connects transitioning active-duty military service members, veterans, National Guard and Reservists with skilled training and quality career opportunities in the construction industry.

We've partnered with 15 international construction trade unions—like the International Brotherhood of Electrical Workers (IBEW) and the International Association of Sheet Metal, Air, Rail and Transportation Workers (SMART)—that have made a commitment to help our military heroes successfully transition to civilian life and work. We help service members explore the construction trades, get them started with earn-while-you-learn apprenticeship training programs through these partner organizations, and help connect them with employers. We educate service members on how they can use their G.I. Bill benefits to supplement their incomes while participating in a registered apprenticeship program.

WHY REGISTER?

We're glad you asked! Helmets to Hardhats is a great resource for many reasons. We help veterans pursue a career in a Union construction trade of their choice. You don't need to have any experience in Construction. You will join an Apprenticeship Program which will provide you with all the training you need. As an apprentice, you will be working full time on a construction site while getting trained. You get paid for every hour you work, and the apprenticeship training comes at no cost to the veteran through the local building trades. The length of apprenticeship varies from three to five years. Each union recruits and conducts training a bit differently—we will help you navigate that. Because these apprenticeships are federally approved programs & include an educational component, you can use your G.I. Bill to supplement your income while you train – meaning you're getting paid to work & get to keep your benefits.

Honor Flight-Rochester.....585-210-2115

Visit honorflight.org for more information.

Honor Flight is free to all American veterans. Flights are filled with men and women from the earliest eras first. Those with catastrophic illness from any era receive priority. World War II veterans and Korean War veterans will travel before those of more recent eras. HFR's tagline is, "We Leave No Veteran Behind." Further, within each era Veterans typically fly in the order their applications are received.

The flying season is April to October. There are hundreds of local veterans currently, on our fly lists. Applications are now being accepted from all eras. Veterans from World War II and the Korean War have a quick turn-around because their lists are smaller. The sooner Veterans apply, the sooner they fly.

This program assists veterans across the nation to visit their Washington D war memorials and Arlington National Cemetery at no cost. Resources are pooled, experience is shared, and alliances are formed throughout America to get World War II, Korean, and Vietnam era veterans, as well as terminally ill veterans of any era to their precious memorials safely.

Visit jst.doded.mil/jst for more information.

JST is the Joint Services Transcript that has replaced the Coast Guard Institute Transcript, the Army/American Council on Education Registry Transcript System (AARTS) and the Sailor/Marine American Council on Education Registry Transcript (SMART). JST is an academically accepted document approved by the American Council on Education (ACE) to validate a service members military occupational experience and training along with the corresponding ACE college credit recommendations.

All enlisted, officers and warrant officers, both active and veterans from all Army components, Coast Guard, Marine Corps and Navy. are eligible for this program. Note that JST receives its data from underlying Army, Coast Guard, Marine Corps and Navy personnel systems. Air Force personnel should contact CCAF to receive transcripts (URL: www.au.af.mil/au/ccaf/transcripts.asp).

The Benefit it provides is a description of military schooling and work history in civilian language. It serves as a counseling tool for academic and career counselors in advising service members and veterans. It serves as an aid in preparing resumes and explaining Army, Coast Guard, Marine Corps, National Guard and Navy work experience to civilian employers. It also saves time and money by awarding academic credits, which means less tuition to pay, and less time spent in the classroom. You do not have to be active duty to access the JST website and your transcript. Active duty, Reserve, Veterans or National Guard personnel can use JST.
