

Emergency Medical Response

Support in Critical Moments

Respond. Assess. Triage. As the first trained professional on the scene, your initial actions serve as a vital lifesaving link between early treatment and more advanced care. Your ability to deliver exceptional prehospital care starts with selecting a trusted professional-level training program that provides you with a mastery of lifesaving techniques.

Our Emergency Medical Response (EMR) program is ideal for individuals preparing for a private or public sector job that requires an emergency response certification. This comprehensive 56 hour classroom course focuses on the critical knowledge and skills to help sustain life, reduce pain and minimize the consequences of injury or sudden illness until more advanced medical personnel take over.

Program Highlights

Learning Modules: assessment, airway, circulation, medical and trauma emergencies, special populations, EMS operations

Curriculum based on national EMS education standards for emergency medical responders Instructional Guidelines

Dynamic content delivered via lecture, video, simulated emergency scenarios, hands-on skills practice

Certification is valid for 2 years. Expedited Review and Challenge options available

The need for emergency medical response training is greater than ever. Learn how you can start your EMR training today.
