

American Red Cross AED Program: The Right Choice for Your Business

**More than 10,000 cardiac arrests
occur annually in the workplace.
How prepared are your facilities?**

All-in-One Program

The Red Cross provides comprehensive training on how to use an AED and partners with leading manufacturers to help you obtain these devices. Our AED program delivers the elements you need:

- Nationally-recognized First Aid, CPR and AED training
- Flexible AED purchase options from Phillips, Physio-Control and ZOLL
- Onsite needs analysis, placement and program implementation
- AED training devices and replacement accessories
- Facilitation of a program management service for updates, certification tracking, alerts and manufacturer support

**Take advantage of exclusive pricing
available only through the Red Cross.**
