

Haiti Assistance Program (HAP)

Projects Funded by the American Red Cross

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
SECTOR: Emergency Relief						
Contribution to Food Distribution	World Food Programme	\$ 29,929,039	19-Jan-10	31-Dec-10	Closed	Food rations for over 1 million people and associated distribution costs, primarily to young mothers and children through a partnership with the UN World Food Programme.
Domestic Heater Meals	American Red Cross and Haitian Red Cross	\$ 14,224,831	2010	2010	Closed	Contributions to the IFRC Earthquake Appeal covered the purchase of tarps/tents, hygiene kits, non-food items, shipping, transportation and general infrastructure costs to mount these distributions--such as purchase of vehicles and generators. The American Red Cross also donated nearly 3 million packaged meals for distribution in the early days of the response. These funds also contributed to Base Camp set-up, which was the main operational hub in Port-au-Prince during the relief and early recovery phases.
Contribution to ICRC Appeal	International Committee of the Red Cross (ICRC)	\$ 3,612,064	2010	2010	Closed	Contributions to the ICRC Earthquake Appeal totaled \$4,169,518, distributed across various sectors as follows: Relief: \$3,612,064, Shelter: \$236,988, Health: \$369,903, Water and Sanitation: \$28,632. Contributions supported immediate emergency needs including the following: the mobilization table and associated expenses such as shipping, transportation (chartered aircraft) and distribution costs, food rations, restoring family links including the establishment of a telephone hotline, capacity building and equipping of Haitian Red Cross (Haitian Red Cross) volunteers, distribution of relief supplies including non-food items, emergency shelter materials, dressing kits for hospitals, emergency medical and surgical supplies for the treatment of wounded people, provision of first-aid and primary health care services, provision of clean water in camps and shantytowns, and supporting the National Water Board to repair water points and sanitation facilities.
Hope for Haiti Now Fund	American Red Cross and Haitian Red Cross	\$ 1,605,528	2010	2011	Closed	Hope for Haiti Now was a charitable services fund of the Entertainment Industry Foundation (EIF). The American Red Cross received \$5,474,652 from the January 22, 2010 fundraising concert produced by MTV Networks. The funds were spent across the following sectors: Relief: \$1,605,528, Shelter: \$1,601,659, Health: \$306,035, Water & Sanitation: \$1,961,430 to meet immediate emergency needs, specifically for the procurement and associated distribution costs to provide earthquake affected families with relief supplies such as: mosquito nets, sleeping mats, tarpaulins, blankets, family tents, jerry cans, buckets, and hygiene kits--as well as guidance on the use of shelter materials to complement the distributions.
Contribution to IFRC Appeal	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 6,535,937	2010	2012	Closed	Contributions to the IFRC Earthquake Appeal covered the purchase of tarps/tents, hygiene kits, non-food items, shipping, transportation and general infrastructure costs to mount these distributions such as purchase of vehicles and generators. These funds also contributed to Base Camp set-up which was the main operational hub in Port-au-Prince in the relief and early recovery phases.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
SECTOR: Shelter & Neighborhood Rehabilitation						
Contribution to ICRC Appeal	International Committee of the Red Cross (ICRC)	\$ 236,988	2010	2010	Closed	Contributions to the ICRC Earthquake Appeal totaled \$4,169,518, distributed across various sectors as follows: Relief: \$3,612,064, Shelter: \$236,988, Health: \$369,903, Water and Sanitation: \$28,632. Contributions supported immediate emergency needs including the following: the mobilization table and associated expenses such as shipping, transportation (chartered aircraft) and distribution costs, food rations, restoring family links including the establishment of a telephone hotline, capacity building and equipping of Haitian Red Cross (Haitian Red Cross) volunteers, distribution of relief supplies including non-food items, emergency shelter materials, dressing kits for hospitals, emergency medical and surgical supplies for the treatment of wounded people, provision of first-aid and primary health care services, provision of clean water in camps and shantytowns, supporting the National Water Board to repair water points and sanitation facilities.
Emergency Shelter	Habitat for Humanity	\$ 3,864,310	8-Mar-10	31-Mar-11	Closed	Habitat for Humanity distributed 14,040 kits (benefitting approximately 70,200 people). The kits enabled beneficiaries to either construct a new shelter or make repairs to an existing shelter. Additional kits were pre-positioned for use in future disaster responses. As per Global Shelter Cluster strategy and per humanitarian specifications, each kit contained the following components: two 5-gallon buckets, two tarpaulins, rope, wire, nails, duct tape, a hammer, a pry bar, two chisels, pliers, 10 dust masks, leather work gloves, safety glasses, a hacksaw with two replacement blades and a folding knife.
Transitional Shelter Project	Haven	\$ 2,686,164	1-Jul-10	31-Jul-11	Closed	Thanks to American Red Cross funding, Haven constructed 499 transitional shelters (benefiting 2,495 people) each with rainwater harvesting units--and constructed 189 latrines. The project also included hygiene promotion activities.
Shelter Paint Kits - Housing Improvements	French Red Cross	\$ 201,591	1-Apr-11	30-Sep-11	Closed	The French Red Cross improved the sustainability of transitional homes by giving 1,425 vulnerable displaced families (7,125 people) vouchers valued at 6,000 HTG (roughly US\$150) to be used to purchase a paint kit. Painting the homes helps the structures better withstand inclement weather, thus making them more durable.
Transitional Shelter Project	UNOPS	\$ 6,592,827	15-Aug-10	30-Nov-11	Closed	UNOPS constructed 1,500 transitional homes (benefitting 8,050 people), each with a rainwater catchment system, and 606 latrines.
Transitional Shelter Project	Habitat for Humanity	\$ 6,403,043	1-Sep-10	31-Dec-11	Closed	Habitat for Humanity built 1,500 upgradable t-shelters (benefitting 7,500 people) each with a structural foundation and a rain catchment system, plus 409 hand washing stations, 375 latrines (designed for four families each), 10 new water points, and 8 hand pumps. Through this project, Habitat for Humanity also rehabilitated one well.
Transitional Shelter Project	Humanity & Inclusion	\$ 5,077,953	14-Aug-10	31-Dec-11	Closed	Humanity & Inclusion (formerly Handicap International) built 971 t-shelters and 893 latrines, which benefitted 4,799 people.
Hope for Haiti Now Fund	American Red Cross and Haitian Red Cross	\$ 1,601,659	2010	2011	Closed	Hope for Haiti Now is a charitable services fund of the Entertainment Industry Foundation (EIF). The American Red Cross received \$5,474,652 from the January 22, 2010 fundraising concert produced by MTV Networks. The funds were spent across the following sectors: Relief: \$1,605,528, Shelter: \$1,601,659, Health: \$306,035, Water & Sanitation: \$1,961,430 to meet immediate emergency needs, specifically for the procurement and associated distribution costs to provide earthquake affected families with relief supplies such as: mosquito nets, sleeping mats, tarpaulin, blankets, family tents, jerry cans, buckets, hygiene kits as well as guidance on the use of shelter materials to complement the distributions.
Disaster Response Project	American Red Cross and Haitian Red Cross	\$ 8,483,597	2010	2011	Closed	Purchase, transportation and distribution of relief supplies related to emergency shelter in the earthquake's immediate aftermath-- including tents, tarps, rope and mats.
Miron Relocation (Quick Action Fund project)	American Red Cross and Haitian Red Cross	\$ 50,980	1-Jul-11	31-Mar-12	Closed	The Government of Haiti requested this project, to relocate 103 IDP families (515 people) situated in a dangerous ravine through a rental subsidy program.
Progressive Shelters	Spanish Red Cross	\$ 2,881,250	1-Jan-11	30-Jun-12	Closed	To meet the longer term housing needs of those displaced by the earthquake, the Spanish Red Cross upgraded 4,427 transitional shelters (benefitting 22,135 people) into permanent homes and constructed 1,500 latrines. Community members in Leogane were involved in the construction process, learning skills they could apply to future jobs.
Permanent Multi-Family Housing Units	Fuller Center	\$ 48,000	18-Jun-12	29-Jul-12	Closed	The goal of this project was to help earthquake victims improve their own lives by providing shelter in healthy, holistic communities. Specific objectives included creating permanent multi-family housing units, fostering a sustainable community environment and providing industry and business opportunities for community members. Six housing units were built benefiting a total of 30 people.
Progressive Shelters	Swiss Red Cross	\$ 802,697	1-Jul-11	30-Sep-12	Closed	The Swiss Red Cross upgraded 599 homes (benefitting 2,995 people), all of which were provided with a 400 gallon water tank for rain catchment.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
Ayiti Initiative on Reconstruction (REPAIR)	Pan American Development Foundation (PADF)	\$ 10,754,622	15-Aug-11	31-Oct-12	Closed	The Pan-American Development Foundation (PADF) Ayiti Initiative on Reconstruction (REPAIR) project repaired and rehabilitated 4,018 yellow-tagged, earthquake-damaged homes in Port-au-Prince benefitting 20,090 people. The REPAIR project worked through small local contractors from the areas where the yellow houses are located and trained more than 900 builders, masons and small contractors to use improved construction techniques and home repair methodologies. Houses repaired under the PADF program are tagged and certified as compliant with the Haitian Government's yellow house repair guidelines.
Transitional Shelter Project	Agency for Technical Cooperation and Development (ACTED)	\$ 5,864,754	1-Jul-10	31-Dec-12	Closed	ACTED constructed 1,700 transitional homes (benefitting 8,500 people) each with a rainwater catchment system, and 1,032 latrines. ACTED distributed mosquito nets and life straw filters to 1,677 households. Disaster Risk Reduction activities included participatory natural disaster vulnerability identification, assessments and risks mapping at the community level. Hygiene promotion training consisted of training of Community Hygiene Promoters (CHP).
Relocation and Rental Subsidies: Mais Gate	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 2,000,000	1-Nov-11	28-Feb-13	Closed	At the Red Cross Red Crescent Movement level, 13,000 families (65,000 beneficiaries) were targeted for relocation assistance. The American Red Cross supported the relocation of 2,020 of these families (10,100 people) by providing them with rental subsidies.
Relocation and Rental Subsidies: Carrefour-Feuilles	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 4,000,000	1-Sep-12	31-Dec-13	Closed	This pledge covered the relocation of 2,072 (10,360 people) households from camps into safe rental housing in Port-au-Prince.
Relocation and Rental Subsidies of Additional Camps	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 2,400,000	1-Jan-13	31-Mar-14	Closed	This pledge covered 1,208 households (6,040 people) with relocation and rental subsidies assistance in Port-au-Prince.
Rubble Removal and Demolition	CORE (formerly JP/HRO)	\$ 2,984,511	1-Oct-12	30-Nov-14	Closed	CORE (formerly JP/HRO) provided demolition and rubble removal services targeting homes and other buildings that were classified as "red" or requiring demolition, as per the Haitian Ministry of Public Works, Transport and Communications (MTPTC) standards. Through this project, more than 108,000 cubic meters of rubble were cleared (the equivalent of about 40 olympic-sized swimming pools of rubble). 3,204 people received temporary employment through this project. Additionally, 238 households (1,190 people) received rubble removal services from their home, making their homes safer to inhabit.
Contribution to IFRC Appeal (Shelter Component)	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 10,780,604	2010	2014	Closed	This contribution supported the transitional shelter component of the IFRC Shelter Program including the purchase and distribution of shelter tool kits, construction materials and supplies which included tarpaulins, plywood sheets, hurricane tarps, paint, sand, gravel, tools, subcontractor labor charges, shelter concrete blocks and latrines and their associated costs to mount the operation. The three projects specifically supported by the American Red Cross contribution include the construction of transitional shelter units in the Annex de la Mairie, La Piste and Saint Marc sites. Also, American Red Cross funding contributed to the cash vouchers project for t-shelter recipients to increase the purchasing power and equip earthquake affected families with critical household items.
Camp Autonomization Project	French Red Cross	\$ 1,529,698	15-Mar-14	30-Jun-15	Closed	In order to reduce camp residents' dependency on humanitarian assistance and decrease displaced households' density in long term camps, this project sought to improve the resilience of the population in several camps by increasing self-management and access to services as well as expanding livelihood opportunities for internally displaced people and their surrounding neighborhoods. The project established six early warning systems in camps, sensitized 12,240 people on disaster risk reduction, supported fifty households to launch income-generating activities and provided business training to 198 people.
Construction of Rehabilitation Clinic (Community Investment Fund project)	Global Therapy Group	\$ 73,988	7-Nov-13 15-Jun-15	31-Jan-14 14-Jan-16	Closed	Global Therapy Group was created in response to the dire need for rehabilitation services in Haiti following the 2010 earthquake with the goal of providing disabled individuals access to appropriate rehabilitation services, improving their functional ability and their integration into all aspects of Haitian life. This two-phased project funded the construction of a small therapy clinic for physical and occupational therapy in Port-au-Prince, which was inaugurated in June 2014, and the subsequent installation of sanitation facilities at the clinic. GTG also provided training and education in effective WASH interventions for patients and their families.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
From Camps to Secure Housing	CARE	\$ 1,990,109	1-Dec-13	31-Mar-16	Closed	The main objective of this project with CARE was to effectively contribute to the closure of camps by providing camp residents opportunities to live in safe housing, restore access to improved sanitation facilities and livelihoods while providing security to families currently living in damaged structures. The project closed ten camps, helped 453 families to relocate to more stable housing, and constructed or repaired 189 latrines.
From Camp Transformation to Urban Revitalization (CATUR)	UN-HABITAT	\$ 1,500,141	1-Apr-14	31-Mar-16	Closed	This project through UN-HABITAT assisted federal government bodies and municipal authorities build consensus regarding internally displaced persons camp exit strategie. The project strengthened analysis and decision-making capacities on 'ending displacement' and improved advocacy on possible scenarios for implementation, providing roadmaps for "camp urban integration".
St. Louis de Gonzague Running Track	Global Communities	\$ 140,928	20-May-16	7-Sep-16	Closed	Global Communities constructed a running track for St. Louis Gonzague school in Port-au-Prince. The track serves the school population of 1,700 students, as well as traveling groups that use it for competitions.
LAMIKA - Integrated Neighborhood Rehabilitation and Recovery	Mercy Corps	\$ 2,652,571	8-Nov-13	28-Feb-17	Closed	The economic development component of LAMIKA employed a range of strategies and interventions designed to improve the socio-economic conditions for households in Carrefour-Feuilles. The project enhanced local markets and household economies, and increased opportunities for sustainable income and asset security, directly benefitting more than 2,100 people. Through the project, more than 450 small businesses and entrepreneurs received financial support or training to strengthen their business, 238 young people graduated from vocational training programs, and 67 community savings and loans groups were established and supported.
LAMIKA - Integrated Neighborhood Rehabilitation and Recovery	American Red Cross and Haitian Red Cross	\$ 8,947,160	1-Nov-11	30-Sep-17	Closed	<p>The primary goal of the LAMIKA program was to enhance community and household resilience through a sustainable and integrated approach that provides healthy, habitable and improved homes and living conditions. The LAMIKA program, in accordance with the Haitian government's request for organizations to work in urban renewal, was implemented in Carrefour-Feuilles, a poor residential neighborhood north of downtown Port-au-Prince which sustained extensive damage from the earthquake and was characterized by dense housing, poverty and limited access to safe infrastructure and services. The LAMIKA program conducted activities under three pillars in Social Engagement, Economic Strengthening and Physical Renewal to address needs across multiple sectors. Pillar I was implemented by the American Red Cross, Pillar II by Mercy Corps and Pillar III by Global Communities.</p> <p>The goal of LAMIKA Pillar 1 was to increase knowledge, attitude, practices, capacities and social responsibility of the community and service providers regarding social and healthy behaviors. Achievements of pillar 1 include the formation, training and equipping of eight neighborhood emergency intervention teams, and support to more than 5,000 students in 17 schools with disaster risk reduction and health and hygiene education.</p>
LAMIKA - Integrated Neighborhood Rehabilitation and Recovery	Global Communities	\$ 19,409,265	3-Feb-14	30-Sep-17	Closed	This project was the physical renewal aspect of the American Red Cross's LAMIKA program. It focused on improving public infrastructure services and increasing the number of structurally safe houses, public spaces and public facilities in the Campeche and Tapis Rouge neighborhoods of Carrefour-Feuilles, Haiti. Project achievements include provision of safe housing support to more than 400 families, the construction or rehabilitation of seven schools, and the installation a community water network. The project transformed Campeche and Tapis Rouge from a marginalized community with very limited access to basic services into a well-defined community, integrated with the rest of the Port-au-Prince.
Canaan Program	CORE (formerly J/P HRO)	\$ 141,667	1-Apr-17	31-Mar-18	Closed	This urban greening project with CORE (formerly J/P HRO) created two public parks and rehabilitated one ravine with a combination of gray (human-engineered) and green (plants and trees) infrastructure, furthering the goal of increasing community resilience and social cohesion through green instructure. The project directly benefitted 9,500 people.
Integrating Villambetta into the DINEPA Water Network	French Red Cross	\$ 568,043	1-Apr-17	30-Apr-18	Closed	This project was part of a comprehensive urban integration pilot program targeting IDP (internally displaced persons) camps. The project constructed a 2,214-meter water supply network and installed a 160-meter water distribution network in the former Villambetta IDP camp that improved access to drinking water for residents and neighboring populations. During the project period, the camp was formalized and is now considered a formal neighborhood. The project directly benefitted 6,366 people.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
Canaan Program	USAID	\$ 8,873,887	19-Aug-13	31-May-18	Closed	The American Red Cross partnered with USAID to implement a project to support sustainable and responsible urban development in Canaan, increase the provision of basic services and infrastructure and support job growth. In accordance with the priorities of the Government of Haiti, this partnership leveraged the resources residents themselves bring to their community. The project provided urban planning assistance, promoted safer housing and built capacity of local entities to adopt safer and more sustainable construction. More than 700 people were reached with public safe construction campaigns, 1,300 meters of road were constructed or rehabilitated and 145 solar lights were installed. More than 300 small businesses and entrepreneurs were supported and more than 330 people trained on income-generating activities.
Canaan Program	American Red Cross Haitian Red Cross Internews	\$ 4,516,844	1-Dec-14	1-Jul-18	Closed	<p>Canaan is an emerging city north of the metropolitan area of Port-au-Prince, Haiti, which spontaneously developed following the 2010 earthquake. American Red Cross's Canaan Program was an integrated program targeting the entire area of Canaan that was comprised of multiple projects, each focusing on a strategic need in Canaan and each contributing to the resilient and equitable urban development of the area. The program mobilized a coalition of actors in order to respond to complex and growing needs. Program components included community resilience building, strategic urban planning, basic services and infrastructure and job creation.</p> <p>The Ansanm Nou Kapab, or "Together We Can" project—implemented by the American Red Cross and the Haitian Red Cross—focused on building the resilient social fabric of communities in Canaan. Community groups and Haitian Red Cross volunteers were supported to prepare and respond to future natural disasters and to constructively advocate their needs to the government and other external stakeholders. Nine Community Intervention Teams composed of local volunteers and connected to the national disaster management authority were trained on first aid, light search and rescue, and equipped with vital supplies for emergency response. More than 2,100 students in 46 schools were reached with disaster risk reduction education.</p> <p>An additional component of the project included a partnership with the organization Internews to give voice to the individual and collective experience and imagination of people building up and developing Canaan in order to inform decisions for improved urban practices in Canaan and elsewhere. Through the project, Internews trained and mentored two community reporters and eight journalists.</p>
Canaan Program	Global Communities	\$ 7,776,113	25-Feb-17	28-Feb-19	Closed	The goal of this project was to promote safe, equitable and resilient urban development in Canaan. Achievements include the construction of the main road in Canaan and associated drainage works, a potable water network, and the Canaan Public School, the installation of street signage and solar lighting, the extension of the electricity network, and the construction or upgrading of public spaces and community centers.
LAMIKA - Integrated Neighborhood Rehabilitation and Recovery	International Organization for Migration (IOM)	Consent to release information has not been provided.			Closed	As part of the initial LAMIKA assessment phase, this project with the International Organization for Migration (IOM) aimed to complement ongoing return and reconstruction efforts by expanding existing enumeration initiatives. Specifically, this project increased the coverage of IOM's existing Overcoming Land Tenure-Related Barriers (OLTB) program, in order to clarify issues related to land ownership and tenancy to facilitate (re)construction in target communities. This project completed enumeration activities in the 7th communal section of the Port-Au-Prince commune where enumeration partners such as the American Red Cross had planned housing interventions. This effort included processing and encoding data into IOM's existing OLTB database, and the production of maps that best presented this data for reconstruction partners.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
SECTOR: Health (Excluding Cholera)						
Operational Support for Measles Campaign	United Nations Foundation	\$ 374,500	2-Feb-10	31-Dec-10	Closed	The American Red Cross supported rapid vaccination in camps post-earthquake in 2010; the multi-agency coordinated measles vaccination campaign in April 2012 led by the United Nation's Foundation; and associated social mobilization activities carried out by the Haitian Red Cross. The national coverage reached through the 2012 campaign was 92.4% for the polio vaccine and 94.6% for the measles and rubella vaccine. Additionally, 1.2 million units of vitamin A and 1.3 million units of albendazole (antiparasitic drug) were administered. Rapid Monitoring Coverage following the campaign conducted in all departments indicated that national coverage reached was more than 95%.
Contribution to ICRC Appeal	International Committee of the Red Cross (ICRC)	\$ 369,903	2010	2010	Closed	Contributions to the ICRC Earthquake Appeal totaled \$4,169,518, distributed across various sectors as follows: Relief: \$3,612,064, Shelter: \$236,988, Health: \$369,903, Water and Sanitation: \$28,632. Contributions supported immediate emergency needs including the following: the mobilization table and associated expenses such as shipping, transportation (chartered aircraft) and distribution costs, food rations, restoring family links including the establishment of a telephone hotline, capacity building and equipping of Haitian Red Cross volunteers, distribution of relief supplies including non-food items, emergency shelter materials, dressing kits for hospitals, emergency medical and surgical supplies for the treatment of wounded people, provision of first-aid and primary health care services, provision of clean water in camps and shantytowns, supporting the National Water Board to repair water points and sanitation facilities.
Operational Support for Haiti's University Hospital	Partners in Health	\$ 2,558,386	12-Jan-10	28-Feb-11	Closed	The American Red Cross, through its contribution to Partners in Health, provided operational support for Haiti's University Hospital (HUEH), the largest public hospital in Haiti. For the months between July 2010 and February 2011, Partners in Health disbursed \$3,284,914 to HUEH to pay supplementary compensation to its 1,440 Haitian staff. The American Red Cross reimbursed \$2,077,266 of these costs (for the months July 2010 and November 2010 – February 2011), and provided nearly \$500,000 for equipment and supply expenses and support for other services for the hospital.
Blood Services Augmentation	American Red Cross and Haitian Red Cross	\$ 741,745	15-Jan-10	31-Mar-11	Closed	In the immediate aftermath of the earthquake, the American Red Cross Biomedical Services Department purchased and transported 4,265 units of blood to supplement the Haitian Red Cross's diminished capacity to collect and process blood.
Disaster Response Activities	American Red Cross and Haitian Red Cross	\$ 180,398	2010	2011	Closed	Directly implemented relief costs associated with American Red Cross's response in the immediate aftermath of the earthquake in the emergency health sector. These costs include purchase, transportation and distribution of first-aid supplies.
Hope for Haiti Now Fund	American Red Cross and Haitian Red Cross	\$ 306,035	2010	2011	Closed	Hope for Haiti Now was a charitable services fund of the Entertainment Industry Foundation (EIF). The American Red Cross received \$5,474,652 from the January 22, 2010 fundraising concert produced by MTV Networks. The funds were spent across the following sectors: Relief: \$1,605,528, Shelter: \$1,601,659, Health: \$306,035, Water & Sanitation: \$1,961,430 to meet immediate emergency needs, specifically for the procurement and associated distribution costs to provide earthquake affected families with relief supplies such as: mosquito nets, sleeping mats, tarpaulins, blankets, family tents, jerry cans, buckets, hygiene kits as well as guidance on the use of shelter materials to complement the distributions.
Post-Earthquake Health and Hygiene Promotion in Camps Program (Part 2)	American Red Cross and Haitian Red Cross	\$ 2,841,024	1-May-10	30-Nov-12	Closed	The American Red Cross Post-Earthquake Health and Hygiene Promotion Program followed a community-based approach to providing first aid and promoting hygiene, health, disease prevention and safety in the camps. Program activities included hygiene promotion, condom distribution and education on preventing cholera, malaria, HIV and sexual and gender-based violence. The program also conducted disease mitigation activities in the camps. The project reached more than 315,000 people with hygiene messaging and distributed 1,616,361 condoms, 35,251 oral rehydration salt sachets, 2,268,941 bars of soap and 9,550,085 Aquatabs.
Mobile Medical Services	HOPE	\$ 9,041	2-Jun-12	31-Dec-12	Closed	Through funding provided by the Belizean Grove Foundation, the American Red Cross enabled HOPE to provide mobile medical services to 3,200 individuals.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
Prosthetics Clinic Construction	International Committee of the Red Cross (ICRC)	\$ 1,366,340	1-May-10	31-Dec-12	Closed	Injuries from the earthquake resulted in the loss of limbs for more than 5,000 survivors. The International Committee of the Red Cross (ICRC) rebuilt a prosthetic and physical rehabilitation center, Klinik Kay Kapab, run by the Haitian NGO Healing Hands for Haiti. The ICRC also provided technical assistance for the center to be able to create prosthetic devices for 1,000 people and provide rehabilitation services for 3,000 people.
Operational Support for Bernard Mevs Hospital	Medishare	\$ 8,673,672	1-Oct-10	31-Dec-12	Closed	The American Red Cross supported critical operating expenses, payroll and administrative fees for the Bernard Mevs Hospital Project Medishare Critical Care Trauma and Rehabilitation Program in Port-au-Prince. The hospital operates 24/7 for the general public, providing the only critical care and trauma services for all of Haiti. American Red Cross supported the hospital for 27 months from October 1, 2010 to December 31, 2012, employing over 200 Haitian staff (40 Haitian nurses, 22 Haitian physicians and 150 allied healthcare professionals and Haitian support staff), supported by 10 full-time international mentors and 50 volunteers that provided specialized training.
Mirebalais Teaching Hospital Construction	Partners in Health	\$ 5,500,000	11-Nov-11	31-Dec-12	Closed	The American Red Cross contributed \$5.5 million to Partners in Health for the construction of the University Hospital of Mirebalais—a physician training hospital with an inpatient capacity of more than 300 beds. The hospital provides critical medical services not available at any other facility in Haiti, such as advanced surgical care. The hospital's X-ray and CT scan systems are linked to facilities in the United States that help with diagnoses.
Contribution to IFRC Appeal (Health Component)	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 1,954,319	2010	2012	Closed	American Red Cross contributions to the IFRC Appeal supported provision of preventive, community-level and curative basic health services, hygiene promotion, HIV awareness-raising and psychosocial support to the affected communities as follows: health assessments (access and availability of health services, prevention, health needs and risk of communicable diseases and epidemics), provision of reproductive health kits, medical and surgical supplies, health information, education and support, training of volunteers and staff, reinforcement of Haitian Red Cross capacity to deliver planned HIV program activities with a special emphasis on reaching most vulnerable populations and vector control.
Strengthening Immunizations Services through Measles Control	United Nations Foundation and Haitian Red Cross	\$ 2,082,785	2-Mar-12	14-Feb-13	Closed	The American Red Cross supported the multi-agency coordinated measles vaccination campaign in April 2012 led by the United Nation's Foundation as well as associated social mobilization activities carried out by the Haitian Red Cross. The national coverage reached through the 2012 campaign was 92.4% for the polio vaccine and 94.6% for the measles and rubella vaccine. Additionally, 1.2 million units of vitamin A and 1.3 million units of albendazole (antiparasitic drug) were administered. Rapid Monitoring Coverage following the campaign conducted in all departments indicated that national coverage reached was more than 95%.
Field Hospital Support in Carrefour	German Red Cross	\$ 3,606,927	31-Aug-10	31-Dec-13	Closed	This project supported the operations of the German Red Cross Society's field hospital located in Carrefour, just outside of Port-au-Prince. The field hospital opened immediately after the earthquake and continued to provide free medical services through the end of December 2010, treating over 70,000 patients. The hospital provided both fixed and mobile health services, as well as training for volunteers to provide psychosocial support and community health and hygiene promotion. In addition to supporting the operation of the hospital and salaries of the staff, the American Red Cross also provided support to rehabilitate the soccer field that housed the hospital once the field hospital was closed.
Villa Clinic Support (Community Investment Fund project)	St. Boniface Foundation	\$ 99,547	1-Aug-13	31-Jul-14	Closed	Via the St. Boniface Foundation, this project provided improved health care to a large population center whose clinic was destroyed in the earthquake. The construction of the clinic was funded by the Spanish Red Cross while funding from the American Red Cross was utilized to outfit the clinic with essential medical equipment.
Response to Chikungunya Outbreak (Quick Action Fund project)	Haitian Red Cross	\$ 86,712	9-Jul-14	8-Jan-15	Closed	The objective of this project was to contribute towards eliminating the spread of Chikungunya. Project objectives and activities included enhancing the capacity of the Haitian Ministry of Health to combat Chikungunya, and distributing insecticide mosquito nets, insecticide sprayers, foggers, protective wear and larva killing substances.
Restocking Blood Supply through BioMed and Blood Testing Kits (Quick Action Fund project)	Haitian Red Cross	\$ 266,423	10-Feb-15	30-Apr-15	Closed	On February 5, 2015 when Haiti's automated blood testing equipment at the National Blood Transfusion Center stopped working, the Haitian Red Cross contacted the American Red Cross to request support to fill the gap in its nation's blood supply while repairs of the equipment were completed. The American Red Cross funded the purchase of manual blood testing kits and the provision and shipment of 1,000 units of blood from the United States.
Haiti HIV/AIDS Prevention (HHAP)	American Red Cross and Haitian Red Cross	\$ 4,271,114	1-Jan-11	30-Jun-15	Closed	This project aimed to reduce the incidence of HIV among the most at-risk populations and in settings characterized by high-risk behaviors in 12 locations in Haiti. The project reached 333,010 people.
St. Michel Hospital Reconstruction in Jacmel	Canadian Red Cross	\$ 10,000,000	1-Aug-12	31-Mar-16	Closed	The American Red Cross improved access to health services in the South-East Department of Haiti by contributing \$10 million required for the reconstruction of St. Michel Hospital in Jacmel. The hospital serves the entire population of the South-East Department.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
Haiti Measles and Rubella Initiative	United Nations Foundation and Haitian Red Cross	\$ 1,190,479	23-Jun-14	30-Jun-16	Closed	The American Red Cross supported a national measles & rubella vaccination campaign to reduce measles mortality and to expand implementation of supplementary immunization activities (SIAs) for measles vaccinations in Haiti. Vaccinations were procured by the United Nations Foundation while the Haitian Red Cross carried out the social mobilization component of the program. The Haitian Red Cross trained 794 volunteers to conduct door-to-door visits to encourage families to vaccinate their children, conducted mass sensitizations in public places on the importance of immunization and distributed brochures/posters with key messages regarding vaccination. Volunteers reached more than 113,700 people through home visits and mass sensitizations. The campaign provided vaccinations for 1,420,220 children under the age of 5 against measles and rubella.
Community Support to Children Affected by HIV (Community Investment Fund project)	La Maison l'Arc-En-Ciel (MAEC)	\$ 255,000	1-Aug-14	14-Aug-16	Closed	MAISON L'Arc en Ciel (MAEC) is an organization dedicated to working with vulnerable children affected by HIV/AIDS. This project supported MAEC in their work of providing care to these children through access to health care, curative and preventive treatment, access to school and professional learning, and individual, collective and economic responsibility. American Red Cross funding covered a portion of the costs to construct a stone wall around the perimeter of the property, which was being threatened by aggressive land usurpers.
Response to Zika (Quick Action Fund project)	Haitian Red Cross	\$ 88,608	15-Apr-16	15-Dec-16	Closed	The Haitian Red Cross conducted community mobilizations and vector control activities as part of Haiti's national plan to fight against Zika virus epidemics. The project trained 220 volunteers on Zika control and prevention; provided information on Zika to 25,000 people, including 3,500 pregnant women; distributed 5,800 long-lasting insecticide-treated mosquito nets to pregnant women; and fumigated 3,500 houses where mosquito breeding sites were identified.
Restocking of Blood Testing Kits II (Quick Action Fund project)	Haitian Red Cross	\$ 12,000	29-Aug-17	15-Oct-17	Closed	This project responded to a shortage of blood bags and reagents for hepatitis B and hepatitis C screening, which threatened the continuity and availability of safe blood products. The American Red Cross funded the procurement of lifesaving blood testing kits and blood bags that covered a 15-day gap in supply. The kits were used to perform 4,800 tests, resulting in the transfusion of 4,416 blood bags.
Enhanced Community Health Program	American Red Cross and Haitian Red Cross	\$ 3,686,374	1-Nov-14	30-Jun-18	Closed	This project contributed to building resilience in targeted communities in Haiti through improved access to health information, primary health services and availability of trained personnel in Haiti's West Department. The project, coordinated closely with Government of Haiti's Ministry of Health, trained and deployed 53 Polyvalent Community Health Agents (ASCPs) and 456 Haitian Red Cross volunteers – Health (Haitian Red Cross-V-H). More than 2,700 women attended health education sessions.
Haitian Red Cross National Blood Transfusion Center Construction	Global Communities	\$ 5,456,648	1-Sep-17	15-Jan-20	Active	The Haitian Red Cross National Blood Bank was destroyed in the 2010 earthquake. Thanks to this funding, Global Communities reconstructed the National Blood Transfusion Center and Specialized Analysis Laboratory for the Haitian Red Cross, increasing the Haitian Red Cross's capacity to fulfill its mandate to maintain a safe and sufficient blood supply service.
Gender Based Violence Prevention Project	International Rescue Committee	Consent to release has not been provided.			Closed	The goal of this project was to reduce the incidence and mitigate the consequences of gender-based violence (GBV) in Port-au-Prince by addressing the needs of survivors and by empowering women and girls to participate more actively in Haitian society. This partnership with the International Rescue Committee increased the capacity of local and community-based organizations that already provided valuable services, conducted ongoing needs assessments and trainings with these organizations, and developed an adolescent girls program. The program also helped create financial opportunities for women and promoted women's decision-making ability through empowerment and dialogue both within the home and community. The project directly reached 6,000 people.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
SECTOR: Cholera						
Medishare Cholera Outbreak Response	Medishare	\$ 45,081	28-Oct-10	28-Oct-10	Closed	The American Red Cross funded the shipment of 53,310 pounds of relief items by air through Medishare at the request of the Haitian Ministry of Health to respond to the cholera outbreak.
Cholera Response Supply Shipment	Partners in Health	\$ 136,400	2-Nov-10	2-Nov-10	Closed	The American Red Cross funded the shipment of cholera response supplies for Partners in Health.
Cholera Programming in Port-au-Prince	Save the Children	\$ 315,002	15-Mar-11	31-May-11	Closed	Save the Children managed Cholera Treatment Units (CTUs), transitioned the CTUs to Oral Rehydration Points (ORPs) with a referral system to CTUs, and conducted cholera prevention-focused hygiene promotion activities in Port-au-Prince. The American Red Cross worked together with the US Agency for International Development's Office of Foreign Disaster Assistance (USAID/OFDA) to fund this program. This project reached 117,393 with hygiene promotion and cholera support.
Cholera Prevention and Treatment Efforts	French Red Cross	\$ 989,841	21-Oct-10	21-Jul-11	Closed	The French Red Cross supported hygiene promotion programs, an ambulance service, the creation of camp hygiene and sanitation committees, disinfection of latrines and public places, cleaning drainage systems, installing and managing Oral Rehydration Posts, chlorinating local water supplies and distributing soap, chlorine, waste bins and water drums. The French Red Cross also set up a number of Cholera Treatment Units in Port-au-Prince and rehabilitated primary healthcare centers in Petit Goave. This project reached more than 398,000 people with cholera prevention activities.
Cholera Programming in Leogane	Save the Children	\$ 1,499,999	15-Jan-11	14-Sep-11	Closed	Save the Children set up two Cholera Treatment Units and eleven Oral Rehydration Points in rural areas of Leogane and distributed relief supplies such as soap and aquatabs. This project reached more than 45,000 people with hygiene promotion and cholera support.
Cholera Response and Treatment Efforts	CARE	\$ 1,249,137	1-Feb-11	31-Oct-11	Closed	CARE established and equipped 24 Oral Rehydration Points, supported schools with cholera prevention activities, facilitated cholera case management training, ensured water and sanitation support to eight health facilities, and prevented the spread of cholera through education and the distribution of critical relief supplies. The project reached 517,326 people.
Cholera Prevention and Treatment Efforts	International Medical Corps (IMC)	\$ 1,959,469	15-Jan-11	14-Jan-12	Closed	International Medical Corps established Oral Rehydration Posts and Mobile Medical Units, provided needed staff and supplies, trained volunteers to conduct health and hygiene promotion, constructed and rehabilitated latrines and bathing facilities, provided chlorinated water supplies and trained community members on the proper preparation of chlorine solution, established water kiosks and provided small grants to local organizations to assist them with community-based cholera response projects. 1,189,784 beneficiaries were reached through this project.
Cholera Project	American Red Cross and Haitian Red Cross	\$ 3,213,362	1-Jan-11	30-Nov-12	Closed	Cholera response and prevention activities directly implemented by the American Red Cross focused on improving awareness about proper hand-washing and household water treatment, as well as distributing oral rehydration salts (ORS), soap, water purification tablets and other hygiene commodities. The American Red Cross shipped supplies to affected communities, mobilized health teams and volunteers, helped establish treatment facilities, distributed clean water to thousands of people and launched nationwide public education campaigns using cellphones and weekly radio shows to reach millions of people with prevention messages.
Oral Cholera Vaccination	Partners in Health	\$ 1,025,000	6-Feb-12	15-Jan-13	Closed	This vaccination campaign—conducted by Partners in Health and GHESKIO with support from the Haitian Ministry of Health—sought to reduce cholera deaths in Haiti by introducing the oral cholera vaccination to the country. This pilot project vaccinated 90,000 Haitians against cholera. The pilot was conducted in both an urban area—the Cite de Dieu slum in Port-au-Prince—and a rural area—Bocozel—in the Artibonite river valley.
Contribution to IFRC Hispaniola Cholera Appeal	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 2,196,767	8-Nov-10 30-Nov-11	30-Sep-11 28-Feb-12	Closed	Contributions to the 2010 IFRC Hispaniola Cholera Appeal were specifically earmarked to support immediate needs related to the cholera outbreak in Haiti including the following: Procurement and distribution of soap, oral rehydration salts (ORS), chlorine, cots, protective equipment, cholera kits and other specialized equipment, family hygiene kits and kitchen parcels, training of volunteers in epidemic surveillance and control and hygiene promotion messaging, production and dissemination of communication materials, radio and SMS cholera messaging campaigns, pre-positioning of medical supplies, establishment and maintenance of hand washing points and oral rehydration points, construction of latrines and showers, set-up of Cholera Treatment Centers (CTUs), case management, provision of clean water, periodic microbiological water testing, excreta disposal, solid waste disposal, associated costs to second a Delegate (disaster response specialist) to a Cholera Emergency Response Team as well as a seconded Delegate (disaster response specialist) to mount an Information Management database.
Cholera Handover Project	Haitian Red Cross	\$ 95,934	30-Sep-13	30-Apr-14	Closed	This project was part of the closeout plan for the American Red Cross directly-implemented Cholera Project. The Haitian Red Cross continued the work in the two project areas by providing surveillance, training and referral services to communities. As part of this project, the Haitian Red Cross implemented the following activities: hygiene and sanitation education and promotion, community engagement and capacity building to address cholera, disease control, and surveillance in collaboration with local health system.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
Cholera Prevention and Response Program	Oxfam Great Britain	\$ 525,734	23-Jun-14	23-Jun-15	Closed	As the lead organization in the North and Northeast departments for coordinating cholera prevention and response, Oxfam (GB) targeted six localities in three communes in the North and 4 localities in 4 communes in the Northeast. The activities included facilitating the inclusion of Haitian Red Cross in cholera response activities through coordination and cluster meetings with key WASH/Health actors, training of 200 Haitian Red Cross team members including volunteers in cholera prevention and response, constructing and rehabilitating six WASH facilities in health centers with cholera treatment centers, rehabilitating eight water systems and implementing mass media activities to promote safe sanitation, appropriate domestic water management, food handling and hygiene practices. More than 44,000 people have benefited from the rehabilitated water systems.
Cholera Prevention and Response Program	Norwegian Red Cross	\$ 513,096	23-Jun-14	23-Dec-15	Closed	The goal of this project through the Norwegian Red Cross was to contribute to the elimination of cholera in Grande Goave and Petit Goave in the West Department. The project took an integrated approach of water, sanitation, health and response interventions by improving the alert system, targeting the source of the infection, improving health practices and limiting the spread of cholera. The project built water catchment systems and latrines in eleven schools, benefiting more than 2,000 students. The project established and trained two cholera response teams that conducted more than 100 responses.
Cholera Prevention and Response Program	Swiss Red Cross	\$ 346,099	23-Jun-14	29-Feb-16	Closed	The American Red Cross's contribution was part of a larger US \$2.7 million program implemented by the Swiss Red Cross in the Cormier communal section in the West Department. Activities included setting up and operating a water, sanitation and hygiene (WASH) training center in Cormier, constructing a community solar water kiosk in the training center, training community WASH trainers and the training center management committee and providing training and technical support for household representatives on management and maintenance of community and individual water/sanitation and water treatment and hygiene.
Cholera Prevention and Response Program	French Red Cross	\$ 968,064	23-Jun-14	31-Mar-16	Closed	This project targeted 18 communal sections total, with 14 in the West and 4 in Lower Artibonite departments. The project supported the efforts of the Haitian Red Cross and the Ministry of Health in prevention, response and communication related to the cholera epidemic. The project reached more than 179,000 people with hygiene promotion and cholera prevention messaging and trained 169 Haitian Red Cross volunteers and 200 government representatives in epidemic control, investigation, and cholera response. Additionally, 15 water supply systems were constructed or rehabilitated and more than 70 chlorination points were installed in areas with cholera outbreaks.
Cholera Prevention and Response Program	Haitian Red Cross	\$ 496,248	1-Oct-14	31-Mar-16	Closed	The Haitian Red Cross contributed to the elimination of cholera in Haiti's northern departments through cholera sensitization campaigns, door-to-door messaging and hygiene product distributions that reached more than 167,000 people. In addition, the Haitian Red Cross carried out key coordination responsibilities with Haiti's Ministry of Public Health and Population on behalf of all Red Cross/Red Crescent Movement partners.
Cholera Treatment and Health Service Delivery Project	HOPE	\$ 1,297,152	1-Apr-11	30-Jun-16	Closed	The project supported the operation of two HOPE clinics that provided much-needed services in remote areas of northern Haiti. This project integrated cholera treatment and prevention programs into HOPE's community health work that sought to reduce the incidence of and morbidity from infectious and chronic diseases.
Emergency Oral Cholera Vaccine Immunization Campaign (Quick Action Fund project)	Haitian Red Cross	\$ 5,129	1-Nov-16	31-Dec-16	Closed	The objective of this project was to reduce the burden of cholera cases in health care facilities and reduce cholera deaths through training and deploying volunteers to conduct community outreach and sensitization activities -- including door-to-door and mass media campaigns -- in support of an oral cholera vaccination campaign in the Grand Anse and Sed departments. Haitian Red Cross volunteers reached 26,945 people through this effort.
PAHO Supplies	Pan American Health Organization (PAHO)	Consent to release information has not been provided.			Closed	Pan American Health Organization (PAHO) purchased, shipped and stored 1.4 million solutions of Oral Rehydration Salts, 480,000 bags of Ringer Lactate and a variety of other life-saving medicines and medical supplies during the critical early stages of the response. This partnership also enabled PAHO to purchase logistical equipment for their warehouse, implement an online information management system to track stock and medicines available in their warehouse, produce cholera beds and train Ministry of Health personnel for the transition of the cholera Alert and Response System to the Haitian government.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
SECTOR: Water & Sanitation						
Contribution to ICRC Appeal	International Committee of the Red Cross (ICRC)	\$ 28,632	2010	2010	Closed	Contributions to the ICRC Earthquake Appeal totaled \$4,169,518, distributed across various sectors as follows: Relief \$3,612,064, Shelter \$236,988, Health \$369,903, Water and Sanitation \$28,632. Contributions supported immediate emergency needs including the following: the mobilization table and associated expenses such as shipping, transportation (chartered aircraft) and distribution costs, food rations, restoring family links including the establishment of a telephone hotline, capacity building and equipping of Haitian Red Cross volunteers, distribution of relief supplies including non-food items, emergency shelter materials, dressing kits for hospitals, emergency medical and surgical supplies for the treatment of wounded people, provision of first-aid and primary health care services, provision of clean water in camps and shantytowns, supporting the National Water Board to repair water points and sanitation facilities.
Improving Drainage in Place-de-la-Paix	Concern Worldwide	\$ 111,107	1-Jun-10	30-May-11	Closed	The camps that housed many Haitians were often located on marginal land that is prone to flooding. Through this project, Concern Worldwide addressed the problem by improving drainage at Place-de-la-Paix camp. Project activities included clearing canals and drainage ditches, relocating shelters and constructing and backfilling drains with gravel. An estimated 16,000 people benefited from this project.
Disaster Response Activities	American Red Cross and Haitian Red Cross	\$ 1,013,304	2010	2011	Closed	Purchase, transportation and distribution of relief supplies related to water and sanitation in the earthquake's immediate aftermath-- including hygiene kits, buckets and jerry cans.
Hope for Haiti Now Fund	American Red Cross and Haitian Red Cross	\$ 1,961,430	2010	2011	Closed	Hope for Haiti Now is a charitable services fund of the Entertainment Industry Foundation (EIF). The American Red Cross received \$5,474,652 from the January 22, 2010 fundraising concert produced by MTV Networks. The funds were spent across the following sectors: Relief \$1,605,528, Shelter \$1,601,659, Health \$306,035, Water & Sanitation \$1,961,430 to meet immediate emergency needs, specifically for the procurement and associated distribution costs to provide earthquake affected families with relief supplies such as: mosquito nets, sleeping mats, tarpaulins, blankets, family tents, jerry cans, buckets, hygiene kits as well as guidance on the use of shelter materials to complement the distributions.
Improving Water and Sanitation Services	International Medical Corps (IMC)	\$ 1,573,723	15-Dec-10	15-Jan-12	Closed	International Medical Corps addressed the limited water and sanitation infrastructure in camps for displaced persons by improving access to safe water, clean latrines and bathing facilities. Additional activities included hygiene promotion, trash collection and drainage projects such as canal clearing. This project reached 35,656 people in the Port-au-Prince metropolitan area.
Improving Water and Sanitation Services	American Refugee Committee	\$ 2,761,492	1-Nov-10	31-Jan-12	Closed	American Refugee Committee provided safe water, clean latrines, bathing facilities and hand washing stations in addition to hygiene promotion and drainage activities such as ditch digging and canal clearing. This project aimed to reduce the risk of waterborne and vector-borne disease in spontaneous settlements and their peripheries in Port-au-Prince and in areas where American Red Cross partners constructed transitional shelters. Services included hygiene promotion and improvements to basic water supply, increased access to safe water and latrines, excreta disposal, drainage and trash collection. More than 113,000 people were reached with hygiene promotion.
Water and Sanitation Project	American Red Cross and Haitian Red Cross	\$ 1,459,110	1-Jan-11	30-Sep-12	Closed	This project reduced the risk of waterborne and vector-borne disease in spontaneous settlements and their peripheries in Port-au-Prince, and in areas in which t-shelters were constructed by American Red Cross-funded partners, through hygiene promotion and improvements to basic water supply, excreta disposal, drainage, and trash collection. Achievements included improved access to safe water and sanitation in camps for 41,031 direct beneficiaries, of which 8,000 people had access to safe latrines and 15,050 who had access to showers in camps. Ten temporary water systems were installed in eight different localities, 1,609 cubic meter of safe water was distributed in 5 camps. A total of 301 individual cabins and shower were constructed in 20 sites and another 14 were rehabilitated in two other sites, distribution of 20 solid waste containers in one site, construction and rehabilitation of four communal hand wash stations, construction of 92 meter of drainage, construction and rehabilitation of 29 urinals, four water systems, 20 rainwater harvesting systems, 10 camps received cleaning materials for latrine maintenance, a total of 75 Camp Management Committee and WASH Committee members were trained in construction, operation and maintenance of WASH facilities. Out of those, 36 were also trained in leadership, organizational skills and conflict management.
Solid Waste Collection and Disposal Management	Catholic Relief Services	\$ 3,185,506	31-Oct-11	30-Apr-14	Closed	When the earthquake struck, it all but halted already limited sanitation services such as trash pickup and sewage disposal, leaving waste piled up in market areas and camps. The aim of this program through Catholic Relief Services was to improve hygiene and solid waste disposal in Metropolitan Port-au-Prince. This project served 248,745 people over a period of 34 months.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
Provision of Sanitation Services (Community Investment Fund project)	Sustainable Organic Integrated Livelihoods (SOIL)	\$ 101,700	20-Feb-14	17-Nov-14	Closed	This project focused on the scale-up of SOIL's pilot model for sustainably providing household sanitation services in Northern Haiti. Activities included expanding the capacity of a composting waste treatment facility and improving facility operations and efficiency, constructing and installing more than 200 household or communal toilets, and converting an existing structure on the SOIL farm into a small Training Center to host workshops and trainings for project beneficiaries on topics such as the use of maintenance of ecological sanitation toilets and hygiene. This project reached a total of 2,078 toilet users exceeding the initial target of 1,480 by 598 people. A total of 3,484 people participated in SOIL trainings and educational events in Cap-Haitien.
Contribution to IFRC Appeal (Water and Sanitation Component)	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 18,132,677	2010	2014	Closed	To stem the risk of waterborne and water-related diseases, American Red Cross contributions to the IFRC Appeal supported the following: provision of safe water, adequate sanitation and hygiene promotion, coordination of Movement water and sanitation activities, deployment of Water and Sanitation Emergency Relief Unit (ERU), provision of water through the ERU Water and Sanitation deployment, rapid emergency needs and capacity assessments, periodic microbiological water testing, distribution of water and sanitation relief supplies (household water, treatment, jerry cans, buckets, etc.) and training on use of items, mobilization of Haitian Red Cross volunteers to carry out hygiene promotion activities during distributions, contribution toward the construction of first liquid waste treatment center in the country (Morne-a-Cabrit), re-establishment of water supply where possible through rehabilitation of water supply infrastructure, construction and rehabilitation of sanitation infrastructure, vector control and prevention measures, waste disposal measures, drainage measures, training of community-based Haitian Red Cross volunteers on participatory hygiene, provision of printed communication materials (posters, flyers, manuals, educational materials, etc.) and other supplies to be used in the hygiene promotion activities.
Construction of Septic Tanks in Support of 16/6 Program	UNOPS	\$ 375,476	4-Apr-14	3-Jan-15	Closed	Following a request from UCLBP (Haiti's urban housing ministry), the American Red Cross supported the UNOPS's 16/6 initiative. The 16 Neighborhoods/6 Camps project (16/6) was a government-prioritized initiative to provide an integrated response to the closing of six camps and the resettlement of displaced people. The project aimed to improve the options and quality of life of people returning to their neighborhoods of origin by addressing urgent physical infrastructure and social problems, as identified by the affected communities. Financed by the Haiti Reconstruction Fund, the 16/6 project it was implemented jointly by the Government of Haiti, the International Organization for Migration (IOM), UNDP, the International Labour Organization (ILO) and UNOPS. The American Red Cross-funded portion of the project constructed 350 septic tanks connected to each house constructed under the 16/6 Program, benefitting 1,750 people.
EkoLakay Social Business Pilot in Port-au-Prince	Sustainable Organic Integrated Livelihoods (SOIL)	\$ 600,000	10-Nov-14	9-Jan-17	Closed	Following successful completion of a pilot project with the American Red Cross in northern Haiti, the partnership was expanded to Port-au-Prince. The project designed and implemented a sustainable sanitation service providing dignified sanitation access in impoverished communities in Port-au-Prince that can be scaled-up at minimal expense. Activities included toilet installation, provision of regular waste collection services, relocation of composting waste treatment facility, building of infrastructure necessary to receive waste from the new toilets and safely transform it into agriculture-grade compost, and the evaluation and improvement of the potential for independent entrepreneurs to profitably provide sustained service to EkoLakay toilets. As a result of this project, 863 people in Port-au-Prince Haiti received a dignified, in-home SOIL toilet.
Latrine Desludging Project	International Rescue Committee	Consent to release has not been provided.			Closed	This project protected camp residents from cholera and other water-borne diseases. International Rescue Committee (IRC) worked in conjunction with DINEPA and UNICEF to remove waste from latrines in the most vulnerable IDP camps to extend their viability, directly supporting the DINEPA Strategy for Cholera Prevention Action in the camps. The number of camps this project worked in fluctuated as the Government of Haiti's plans for each area shifted. Overall this project directly served displaced populations of about 42,000 when they were in the highest number of camps, to about 25,000 at the lowest number of camps.
Improving Water and Sanitation Services	International Rescue Committee	Consent to release has not been provided.			Closed	The International Rescue Committee provided safe water, clean latrines, hygiene promotion, trash collection and drainage interventions such as ditch digging and canal clearing. This project reached 58,850 beneficiaries in camps and neighboring communities of Port-au-Prince.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
SECTOR: Livelihoods						
Cash for Work	Mercy Corps	\$ 1,200,968	1-Jul-10	30-Jun-11	Closed	Through this American Red Cross-funded project, Mercy Corps employed 8,700 people to complete small cash-for-work projects that removed rubble, dug drainage canals, recycled rubble to make building materials, cleaned up debris and renovated roads.
Host Family Voucher Support	Mercy Corps	\$ 4,850,155	1-Jul-10	30-Jun-11	Closed	Through this American Red Cross-funded project, Mercy Corps provided support to host families and reached a total of 82,963 beneficiaries by providing vouchers to purchase basic household goods from local vendors. Some of these people also benefitted from income-generating activities, and the program also included hygiene promotion and disaster preparedness education.
School Voucher Project	Danish Red Cross	\$ 1,500,928	1-Nov-10	31-Aug-11	Closed	Through this American Red Cross-funded project, the Danish Red Cross helped displaced families in Les Cayes arrondissement by providing vouchers to cover school fees for 1,850 children as well as livelihoods grants for 2,000 families who host displaced children.
School Voucher Project	American Red Cross and Haitian Red Cross	\$ 1,162,644	1-Dec-10	1-Dec-11	Closed	After the earthquake, many Haitians lost their primary source of income and were left without the means to meet basic needs, including sending their children to school. The American Red Cross helped displaced families in three camps in the Croix Deprez neighborhood by directly paying second and third trimester school fees as well as providing grants for displaced families to cover education-related expenses like uniforms, transportation and lunch money. This project reached 2,727 children.
Livelihoods and Host Family Support	FONKOZE	\$ 8,227,141	1-Mar-10	31-Dec-11	Closed	Through this American Red Cross-funded project, FONKOZE--Haiti's largest microfinance institute--provided microfinance grants and loans to reach 255,460 people, including female heads-of-households, business owners and families hosting displaced Haitians.
Disaster Response Activities	American Red Cross and Haitian Red Cross	\$ 13,007	2010	2011	Closed	Costs associated with American Red Cross's response in the immediate aftermath of the earthquake in the livelihoods category.
Cash Transfer Pilot Project	American Red Cross and Haitian Red Cross	\$ 588,046	2010	2011	Closed	Because the needs of families differ, the American Red Cross committed to providing some families with the financial assistance necessary to choose what local goods and services they needed most. The American Red Cross piloted an innovative cash transfer program to give small cash grants to more than 1,800 families in camps through text messaging to cell phones. Efforts focused on helping families relocate from areas at high risk of flooding.
Contribution to IFRC Appeal (Livelihoods Component)	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 99,110	2010	2012	Closed	American Red Cross contributions to the IFRC Appeal supported delivery of livelihood substitution activities such as cash-for-work for debris clearing, delivery of livelihoods/income substitution activities such as unconditional cash grants, support for community-led livelihood restoration activities through the provision of productive assets, tools, waste removal and quick impact projects providing short-term livelihoods opportunities.
Youth Education and Leadership-Phase I (Community Investment Fund project)	Haitian Education & Leadership Program (HELP)	\$ 117,256	20-Feb-14	19-Feb-15	Closed	Through this American Red Cross-funded project, HELP, the largest university scholarship program in Haiti, supported 167 straight-A students from all over Haiti to access university and also connected students with employment opportunities.
Gigando Pela Paz (Community Investment Fund project)	Viva Rio	\$ 101,053	24-Jun-14	15-Jun-15	Closed	Viva Rio is a Brazilian community-based non-profit organization, which began work in Haiti in 2004 following an invitation from the United Nations. What began as a simple consultancy in Haiti has become today an efficient operation working with youth in some of the toughest neighborhoods in the Haitian capital. With support from the American Red Cross, Viva Rio worked to strengthen youth leadership and decrease violence through sports (capoeira) in the Carrefour-Feuilles neighborhood of Port-au-Prince.
Improved Food Security and Resiliency for People in Dumas/Fort Liberte (Community Investment Fund project)	Congrégation des Petites Sœurs de Sainte Thérèse de L'Enfant Jésus / Congregation of the Little Sisters of St. Therese of Child Jesus (PSST)	\$ 97,600	2-Mar-15	31-May-16	Closed	This project with Congrégation des Petites Sœurs de Sainte Thérèse de L'Enfant Jésus (PSST) had the goal to improve food security, resiliency and well-being for people at Dumas/Fort-Liberté with an emphasis on agriculture production. The project included activities to increase production of drought resistant crops and overall crop production, improve access to water for food production, increase knowledge around agriculture best practices for farmers and improve access to markets.
Empowering Young Women to Lead Transformative Change (Community Investment Fund project)	YWCA	\$ 96,909	1-Aug-15	31-Jul-16	Closed	This project with YWCA aimed to address social taboos and educate and strengthen the capacities of vulnerable young women 18 to 25 years old. A total of 222 young women graduated from a leadership academy in which weekly leadership and empowerment training sessions were held to help them become agents of change in their communities.

Building Capacity Through Computer Literacy (Community Investment Fund project)	Haitian Education & Leadership Program (HELP)	\$ 125,000	1-Sep-15	31-Aug-16	Closed	Through this American Red Cross-funded project, HELP was able to update their aging computer lab to provide more and better computer literacy training to the young people in their program. The new computers assisted students with research and school work and serves as the classroom for a computer literacy course and special IT workshops.
Livelihood Opportunities for Youth in Cite Soleil and Martissant Project	Initiative Pour Le Développement Des Jeunes (IDEJEN)	\$ 345,686	1-Oct-15	31-Dec-16	Closed	This project was designed to improve the economic status and resilience of young people and their families living in deprived areas of Cité Soleil and Martissant. The objectives of the project were to provide basic education, life skills education and technical skills to a group of marginalized out-of-school youth; reinforce the capacity of community-based organizations to address programming needs of out-of-school youth; provide accompaniment support to out of school youth to help them find economic opportunities; advocate for and develop partnerships with the public and private sectors to provide economic opportunities; and establish a task force which could address vulnerable and impoverished youth and engage them in the rebuilding process of Haiti. Project achievements include training 384 young people in basic education, life skills and technical/vocational skills; facilitating internships for 105 young people and supporting four community-based organizations.
Haiti Empowerment Program - Carrefour Sustainable Income Project (Community Investment Fund project)	Grace International	\$ 99,980	1-Feb-16	31-Jan-17	Closed	Through this American Red Cross-funded project, Grace International supported low-income families to participate in a one-year program that emphasizes business fundamentals and personal finance and applies a holistic approach of education, training, guidance and support.
Response to Hurricane Matthew (Quick Action Fund project)	Pan American Development Foundation (PADF)	\$ 37,841	21-Nov-16	28-Feb-17	Closed	Through this American Red Cross-funded project, PADF helped farmers affected by Hurricane Matthew and their families. The project was designed with Haitian Red Cross local branches and community leaders in northern Haiti and responded to the immediate concern of the affected population to restore livelihoods and rehabilitate damaged irrigation canals. Achievements include the distribution of 2,150 kg of beans and 400,000 potato cuttings, and the rehabilitation of 30 linear meters of irrigation canals.
Response to Hurricane Matthew (Quick Action Fund project)	Heifer International	\$ 98,946	4-Nov-16	7-Mar-17	Closed	Through this American Red Cross-funded project, Heifer International supported families affected by Hurricane Matthew in their recovery by rebuilding agriculture and livestock production systems. Heifer distributed livestock to 526 families who lost animals due to the storm, rehabilitated forage plots and provided free mobile veterinary services benefitting more than 5,000 families.
Discovering Young Entrepreneurs in Martissant	Fondation Etre Ayisyen (FEA)	\$ 28,206	1-Jan-16	24-May-17	Closed	This project focused on helping youth start or grow their own enterprises through trainings in entrepreneurship, mentoring and coaching in accessing business development services.
Economic Strengthening and Livelihoods Improvement in the Northwest	Pan American Development Foundation (PADF)	\$ 2,350,000	1-Nov-14	30-Jun-17	Closed	This partnership with the Pan American Development Fund (PADF) sought to enhance food security and contribute to more sustainable and resilient livelihoods for rural women and men in the Northwest Department of Haiti. The project strengthened the capacity of more than 1,700 farmers in various agricultural practices and production techniques, established bio-intensive gardens for more than 1,500 people, provided improved seeds to more than 1,200 farmers who applied disaster resilient agricultural techniques, distributed livestock packages to 1,200 people and established 4 agricultural processing centers.
Investing in Human Capital in Martissant and Cite Soleil	Haitian Education & Leadership Program (HELP)	\$ 106,193	25-Jan-16	24-Aug-17	Closed	This project invested in the existing human capital in the underserved neighborhoods of Cite Soleil and Martissant by providing university scholarships to six students, tutoring 140 students and facilitating internships for fifteen students.
Self Improvement Through Education in Cite Soleil and Martissant	Pan American Development Foundation (PADF)	\$ 199,760	1-Sep-16	30-Sep-17	Closed	The goal of this project implemented by PADF was to increase the opportunities for professional integration of at-risk youth in the neighborhoods of Martissant and Cité Soleil in Port-au-Prince by building their capacity in entrepreneurship practices and income-generating activities. A secondary objective was to strengthen the organizational capacity of local community-based organizations to deliver youth programs. Through the project, PADF trained more than 100 young people in technical fields such as masonry, auto mechanics, tailoring and baking. In addition, more than 400 young people participated in entrepreneurship trainings.
Citoyennete a Martissant	La Fondation Connaissance et Liberté/Fondasyon Konesans Ak Libète (FOKAL)	\$ 174,526	1-Feb-16	1-Oct-17	Closed	The main objectives of the project were to train young people in the neighborhood of Martissant on human rights and civics and to encourage individual autonomy, critical thinking, creativity and cooperation through education, training and communication. Through this American Red Cross-funded project, FOKAL trained 260 young people in citizenship, human rights, gender equality, drug prevention and environmental protection.
Creating Opportunities for Youth in Cite Soleil and Martissant Neighborhoods of Port au-Prince Haiti	Association of Volunteers in International Service (AVSI)	\$ 290,116	1-Oct-15	30-Nov-17	Closed	This project sought to expand opportunities for personal development, improve production skills and increase economic growth for youth. The project strengthened handicraft production capacity and income generating activities through a community development approach with 50 vulnerable youth (street children, youth in conflict with law, youth attached and engaged in armed gangs). Additionally, the project strengthened the organizational capacity of 16 community-based organizations to deliver quality services to youth in the area.

Develope Lidechip Jenn Nou Yo	YWCA	\$ 200,398	15-Nov-16	15-Dec-17	Closed	The goal of this project was to empower and train at-risk and vulnerable Haitian youth ages 9-18 in the Cité Soleil neighborhood of Port-au-Prince to become change agents in their community. The project reached 180 youth with training on life skills, leadership, gender-based violence and family planning. YWCA also strengthened two local community-based organizations to implement their own youth life-skills programming.
Economic Strengthening and Livelihoods Improvement	Centre D'etude et De Cooperation Internationale (CECI)	\$ 3,010,094	1-Dec-14	31-Jan-18	Closed	The objective of this project was to develop and strengthen livelihoods opportunities for people, primarily youth, in Carrefour-Feuilles through vocational training and micro-enterprise development. As a result of the project, 810 young people completed vocational training programs, 26 new businesses were created, and 102 existing businesses were strengthened.
Host Family Support	International Organization for Migration (IOM)	Consent to release information has not been provided.			Closed	Following the January 2010 earthquake, many displaced survivors left Port-au-Prince for other areas of Haiti, often overwhelming local services in these regions and depleting the already overstretched resources of their host families. To help reduce the burden faced by areas hosting displaced Haitians, the American Red Cross partnered with the International Organization for Migration (IOM) to help 20,719 people through a work program which, by supporting livelihoods, reduced pressure on host community resources. Activities included building or rehabilitating small water canals, conducting soil stabilization and expanding access to water in general. The project also distributed basic household goods and/or shelter kits to 7,500 host families and provided additional indirect community benefits from disaster risk reduction and mitigation projects. IOM trained health promoters to educate people in host family communities about cholera prevention.

SECTOR: Disaster Preparedness						
Environmental Scoping Analysis	World Wildlife Fund	\$ 34,210	11-Apr-11	18-Jun-11	Closed	In order to reduce future risk and vulnerability and maximize American Red Cross Haiti Assistance Program long-term outcomes for shelter, water and sanitation, livelihoods and disaster risk reduction programs, World Wildlife Fund conducted an in-country situational analysis to identify specific American Red Cross and external partner needs and finalize a project design and strategy to be jointly implemented by the World Wildlife Fund and the American Red Cross.
Disaster Response Activities	American Red Cross and Haitian Red Cross	\$ 89,649	2010	2011	Closed	Directly implemented relief costs associated with American Red Cross's response in the immediate aftermath of the earthquake in the disaster preparedness sector.
Haiti Emergency Disaster Risk Reduction (DRR) Project	American Red Cross and Haitian Red Cross	\$ 2,927,504	15-Mar-10	28-Feb-13	Closed	This project reduced the risks faced by camp residents through a community-based approach. Disaster preparedness activities included establishing and training resident disaster response committees, developing preparedness plans and installing early warning systems in camps, while mitigation activities included digging ditches, installing drainage systems and reinforcing embankments. In most cases, this program worked in the same camps as the American Red Cross implemented Post-Earthquake Health Promotion Program (PEHP), thus providing comprehensive services to camp communities.
Restocking of Relief Supplies (Quick Action Fund project)	American Red Cross and Haitian Red Cross	\$ 41,101	26-Nov-12	25-May-13	Closed	Through this project, the American Red Cross provided logistical support to Haitian Red Cross in their response to Hurricanes Sandy and Isaac. The majority of the funds were used to refill the stock of emergency relief items in order to maintain a high level of readiness to future emergencies.
Returnee Support at the Haitian / Dominican Border (Quick Action Fund project)	Haitian Red Cross	\$ 25,450	6-Jan-14	15-May-14	Closed	In September 2013, the Constitutional Court of the Dominican Republic ruled that many Dominicans of Haitian descent and officially registered as Dominican citizens at birth no longer met the criteria for Dominican nationality. As a result, a great number of people were repatriated into Haiti at the Haitian/Dominican border. American Red Cross's Quick Action Fund assisted the Haitian Red Cross to scale-up operations at the border to provide timely assistance to the influx of returnees and/or the displaced by supporting the Haitian government in the provision of medical care, psychosocial support, provision of clean water and essential non-food items.
Haiti Green Recovery Partnership	World Wildlife Fund	\$ 155,258	10-Oct-12	30-Sep-14	Closed	The goal of the Haiti Green Recovery Partnership was to mainstream environmental sustainability in American Red Cross-implemented projects and to reduce risk and vulnerability for project beneficiaries by minimizing, mitigating or eliminating environmental degradation. Technical assistance from World Wildlife Fund supported and enhanced consideration and inclusion of environmental components in the American Red Cross's integrated programming approach for both LAMIKA and Gran No Pi Djamn.
Contribution to IFRC Appeal (Disaster Preparedness component)	International Federation of Red Cross and Red Crescent Societies (IFRC)	\$ 4,393,956	2010	2014	Closed	American Red Cross contributions to the IFRC Appeal supported: establishment of early warning systems, community emergency evacuation and contingency plans, community emergency response teams, pre-positioning of emergency stocks, procurement and distribution of emergency equipment kits, training of volunteers and regional and local Red Cross committees in disaster preparedness. Also, the American Red Cross contributed to the purchase of relief supplies for Sandy-affected individuals. In addition, as a learning organization, American Red Cross contributed to two Movement-wide learning events.
Response to Dominican Republic Deportation of Haitians (Quick Action Fund project)	Haitian Red Cross	\$ 100,000	15-Jul-15	31-Dec-15	Closed	The main goal of this project was to strengthen Haitian Red Cross's response systems at particular border points with the Dominican Republic. Through this project, Haitian Red Cross supported displaced people with water and sanitation services, first aid, relief items, Restoring Families Links services and transportation from the border to government centers.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
Gran No Pi Djanm Program	Haitian Red Cross	\$ 4,303,912	1-May-13	31-May-16	Closed	The overall goal of the "Gran No Pi Djanm" Program was for targeted communities in the north of Haiti to have increased resilience, stronger capacity and reduced exposure to external shocks. A key component of this integrated program was to build the capacity of the Haitian Red Cross in three departments (Northeast, North and Northwest) through a multi-sectoral approach. The program targeted 10 communal sections in the Greater North and was co-implemented by the American Red Cross and the Haitian Red Cross in partnership with the Pan American Development Fund (PADF). American Red Cross was responsible for overall implementation of Gran No Pi Djanm as well as capacity building for the Haitian Red Cross and local line ministries to implement programs and to work towards achieving their strategic objectives. The program built or rehabilitated 24 water points, constructed a 600-meter drainage canal, rehabilitated 7,000 meters of agricultural roads, established early warning systems in 10 communities and trained more than 350 teachers on disaster risk reduction. Haitian Red Cross focused on community mobilization, training and behavior change to build more resilient communities and households. PADF upgraded 17 evacuation shelters that can accommodate more than 2,200 people.
Kouri Di Vwazan'w ("KDV" - Tell your Neighbor)	Haitian Red Cross	\$ 147,266	1-Dec-14	31-May-16	Closed	The KDV project contributed to disaster-risk reduction of the Haitian population through the strengthening of Haitian Red Cross's chapter capacities. More specifically the project sought to strengthen chapter capacities through continued training of disaster risk reduction regional focal points, KDV instructors and volunteers and conducting awareness and education campaigns at the community level.
Emergency Preparedness and Response to 2016 Cyclone Season (Quick Action Fund project)	American Red Cross and Haitian Red Cross	\$ 17,984	4-Jun-16	3-Jan-17	Closed	With the aim of minimizing the impact of natural disasters in Port-au-Prince and northern Haiti during the hurricane season of 2016, this project facilitated the training and mobilization of emergency response teams to conduct preparedness and evacuation messaging campaigns in targeted communities in anticipation of Hurricane Matthew. In close collaboration with the government, teams helped residents evacuate to government shelters and conducted post-storm assessments to determine how to best meet the needs of affected people. Relief items had been purchased and pre-positioned prior to the hurricane, which were then distributed to people in need.
Response to Hurricane Matthew (Quick Action Fund project)	American Red Cross and Haitian Red Cross	\$ 16,216	27-Oct-16	26-Feb-17	Closed	Through this project, the American Red Cross provided emergency relief supplies, including cooking and personal hygiene items, to families affected by Hurricane Matthew in the North and Northwest Departments of Haiti, as well sensitized communities to the heightened risk of cholera and which prevention measures to take.
Gran No Pi Djanm Program	Centre D'etude et De Cooperation Internationale (CECI)	\$ 398,846	20-Oct-15	31-Mar-17	Closed	This project complemented the work of Gran No Pi Djanm and provided technical assistance, resources, strategy and methodologies to support select farmers in the Northern and Northeastern Departments to enhance their livelihood resilience and improve their opportunities for income-generation. It increased the capacity of the Communal Agricultural Office (BAC), Haitian Red Cross and Rural Producer Organizations to support extension training of farmers in appropriate value chains in target communal sections; increased farmers' resilience through improved knowledge, practices and techniques for disaster resistant agriculture (ginger, root crops); and enhanced incomes in targeted communities and households - in particular young women - through the processing and marketing of yam, cassava, sweet potato and/or ginger. The project benefitted more than 900 farmers.
Gran No Pi Djanm Program	Haiti Outreach	\$ 444,742	1-Dec-15	31-Mar-17	Closed	This project complemented the work of Gran No Pi Djanm and was an extension of a Haiti Outreach program called the 100 Well Project in the Northeast Department of Haiti. In each of the 8 communities served, the project conducted sanitation and hygiene education and trained two volunteer sanitation teachers to carry on with continuous sanitation and hygiene education and promote the creation of latrines for each household. The project also constructed 17 boreholes and rehabilitated an additional 12.
Gran No Pi Djanm Program	Pan American Development Foundation (PADF)	\$ 2,040,480	2-Feb-15	31-May-17	Closed	The overall goal of the "Gran No Pi Djanm" Program was for targeted communities in the north of Haiti to have increased resilience, stronger capacity and reduced exposure to external shocks. A key component of this integrated program was to build the capacity of the Haitian Red Cross in three departments (Northeast, North and Northwest) through a multi-sectoral approach. The program targeted 10 communal sections in the Greater North and was co-implemented by the American Red Cross and the Haitian Red Cross in partnership with the Pan American Development Fund (PADF). American Red Cross was responsible for overall implementation of Gran No Pi Djanm as well as capacity building for the Haitian Red Cross and local line ministries to implement programs and to work towards achieving their strategic objectives. The program built or rehabilitated 24 water points, constructed a 600-meter drainage canal, rehabilitated 7,000 meters of agricultural roads, established early warning systems in 10 communities and trained more than 350 teachers on disaster risk reduction. Haitian Red Cross focused on community mobilization, training and behavior change to build more resilient communities and households. PADF upgraded 17 evacuation shelters that can accommodate more than 2,200 people.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
Gran No Pi Djann Program	American Red Cross and Haitian Red Cross	\$ 6,876,792	1-Dec-12	30-Jun-17	Closed	The overall goal of the "Gran No Pi Djann" Program was for targeted communities in the north of Haiti to have increased resilience, stronger capacity and reduced exposure to external shocks. A key component of this integrated program was to build the capacity of the Haitian Red Cross in three departments (Northeast, North and Northwest) through a multi-sectoral approach. The program targeted 10 communal sections in the Greater North and was co-implemented by the American Red Cross and the Haitian Red Cross in partnership with the Pan American Development Fund (PADF). American Red Cross was responsible for overall implementation of Gran No Pi Djann as well as capacity building for the Haitian Red Cross and local line ministries to implement programs and to work towards achieving their strategic objectives. The program built or rehabilitated 24 water points, constructed a 600-meter drainage canal, rehabilitated 7,000 meters of agricultural roads, established early warning systems in 10 communities and trained more than 350 teachers on disaster risk reduction. Haitian Red Cross focused on community mobilization, training and behavior change to build more resilient communities and households. PADF upgraded 17 evacuation shelters that can accommodate more than 2,200 people.
Haitian Red Cross North Training Center Project through Global Communities	Global Communities	\$ 854,088	1-Nov-14	30-Sep-17	Closed	Global Communities constructed a new Haitian Red Cross training center in the North Department so Haitian Red Cross could provide trainings for the community and also generate income by renting out the space for special events.
Emergency Preparedness and Response to 2017 Cyclone Season (Quick Action Fund project)	American Red Cross and Haitian Red Cross	\$ 303,115	1-Mar-17	31-Dec-17	Closed	The objective of this project was to help reduce damage and minimize the impacts of natural disasters during the 2017 cyclone season. The project procured emergency response items -- including 1,429 shelter kits, 1,414 hygiene kits, 1,338 cholera kits and 1,000 kitchen sets -- to replenish contingency stock capacities. The project also trained more than 280 Red Cross staff and volunteers in natural disaster response capacities. In total, the project benefitted 15,075 families.
Haitian Red Cross Institutional Asset Development Program	American Red Cross and Haitian Red Cross	\$ 745,086	1-Nov-14	30-Jun-18	Closed	After the 2010 earthquake, the Haitian Red Cross suffered significant damage to multiple national society buildings that hosted activities of many of its core functions. This project supported Haitian Red Cross physical asset rehab and development in coordination with ongoing organizational development (OD) programs supporting comprehensive Haitian Red Cross institutional strengthening. This project worked in tandem with the reconstruction of the Haitian Red Cross Blood Bank, the Croix des Pres branch building, and other structures repaired and constructed.
Building Capacity of Haitian Red Cross Youth Department	Haitian Red Cross	\$ 328,869	15-Jun-16	30-Jun-18	Closed	This project strengthened the Haitian Red Cross Youth Department. Specific objectives included promoting the representation of young people in Haitian Red Cross governance structures, building capacity of Red Cross youth to become leaders in their communities and increasing the number of Red Cross youth volunteers. As a result of project activities, Haitian Red Cross was able to recruit more than 1,000 youth volunteers and hold trainings for youth on topics such as entrepreneurship and leadership.
Restoring Family Links	American Red Cross and Haitian Red Cross	\$ 312,192	1-Nov-15	31-Aug-18	Closed	Haitian Red Cross sought to re-establish a permanent restoring family links (RFL) program that would benefit both national societies (through capacity building and closer cooperation), as well as the individuals assisted. Through this project, Haitian Red Cross's capacity to provide RFL services was strengthened at the national level. This project placed special emphasis on reinforcing RFL services at the Haitian/Dominican Republic border points. The priority target group was those families facing problems with their legal immigration status and risk of an expulsion from the Dominican Republic.
Knowledge Management Program	American Red Cross and Haitian Red Cross	\$ 499,478	8-Oct-14	30-Jun-19	Closed	The goal of the Knowledge Management Project was to inform and improve Red Cross international recovery programming through the capturing, sharing and integration of the Haiti Assistance Program's experience and knowledge throughout the organization; as well as to share lessons learned and best practices with relevant stakeholders in Haiti and globally. Completed learning activities include a compendium of project evaluation findings, learning workshops and sectoral knowledge products reflective of lessons learned throughout the recovery program.
Haitian Red Cross Institutional Change and Development Program	Haitian Red Cross	\$ 3,050,827	2010	30-Jun-19	Closed	The aftermath of the devastating January 2010 earthquake significantly impacted the Haitian Red Cross's infrastructure and operations. The goal of this project was to help the Haitian Red Cross in its organizational development as auxiliary to Government of Haiti for disaster response, to facilitate Haitian Red Cross's proper planning and institutional development and to strengthen the Haitian Red Cross's central/HQ and Regional Branch capacity development planning for future years. Specific activities designed under this program supported Haitian Red Cross's human resources management, financial management, asset management, logistics, communications, IT and security management capacities.
Disaster Preparedness for Effective Response in Haiti	American Red Cross and Haitian Red Cross	\$ 5,750,000	1-Jul-19	30-Jun-22	Active	This project aims to 1) strengthen Haitian Red Cross's ability to fulfill its role as a government auxiliary for disaster preparedness and response, and 2) reduce the disaster risk of targeted communities and enhance their resilience to climate change. The project plans to benefit more than 400,000 people in 17 communes across the West, South and North-West Departments.
National Society Development	American Red Cross and Haitian Red Cross	\$ 3,407,960	1-Jul-19	30-Jun-22	Active	The project objective is to increase Haitian Red Cross's capacity to mobilize and manage resources to maintain its operations and deliver its core programs. Activities will be implemented by Haitian Red Cross with American Red Cross support and will address the following areas: resource mobilization, business planning, project management, external partnerships, volunteer mobilization and management and gender and inclusion.

Project Name	Implementing Partner Organizations	Amount	Start Date	End Date	Project Status	Project Description
Management, General and Fundraising (MG&F) Costs	n/a	\$ 44,113,131	n/a	n/a	n/a	Expenses incurred by the American Red Cross in undertaking management, general and fundraising activities as such activities are defined by the Financial Accounting Standards Board (FASB). Such expenses do not include expenses incurred by the American Red Cross in undertaking activities that result in goods and services being distributed that fulfill the purposes or mission for which the American Red Cross exists. According to FASB, examples of MG&F activities include record keeping, budgeting, financing, fundraising campaigns, maintenance of donor mailing lists, and distributing fundraising materials.
Program Costs	n/a	\$ 71,358,749	n/a	n/a	n/a	Per the Financial Accounting Standards Board, program costs result in goods and services being distributed to beneficiaries that fulfill the purposes or mission for which the Not For Profit (NFP) exists - in this case, disaster relief and recovery in Haiti. These costs ensure delivery of assistance and all services provided in Haiti: shelter, water and sanitation, livelihoods, disaster risk reduction, health and cholera prevention; and include things like: i) salaries, wages and benefits for staff working on our Haiti Assistance Program in the field and at headquarters; ii) travel and maintenance costs for all staff working in Haiti or traveling related to the program; iii) oversight of grants awarded to local NGO or Red Cross member society to support disaster response; iv) accountability, monitoring and evaluation.
Grand Total		\$ 490,145,898
